5BARz™ Commences Rollout of 'ROVR' Wi-Fi Router in First City in India

SAN DIEGO--(BUSINESS WIRE)-- 5BARz International (OTCQB: BARZ) (www.5BARz.com) ("5BARz" or "the Company"), a technology leader in the cellular network extender industry and broadband networks, is pleased to announce that our wholly owned subsidiary, 5BARz India Private Limited has rolled out its first set of advanced next generation **5BARz™ 'ROVR' Wi-Fi Router** in the households of Pune, India. The deployment in Pune is a part of 5BARz exclusive contract with a top Internet Service Provider (ISP) to connect a minimum of 5 million Indian homes to the Internet over the next 5 years.

Through this initial roll out **5BARz™** has marked its entry to the wireless router business. The 5BARz™ 'ROVR' Wi-Fi Router is estimated to cover over 20 million users throughout India, enabling the fastest, optimal and smartest broadband connectivity. In the coming months, 5BARz plans to deploy 'ROVR' Wi-Fi Routers in major metropolitan cities and satellite towns throughout India.

Daniel Bland, Founder and Global CEO of 5BARz International, Inc., said, "I am excited that our product has entered the households of Pune and this marks the beginning of our product journey. We hope 5BARz Wi-Fi Experience Suite will transform connectivity in India. Our 'ROVR' Wi-Fi Smart Experience will be available online for the Indian market through Amazon and we plan to launch the suite in multiple cities within the country over the coming months."

Mr. Samartha Nagabhushanam, CEO, 5BARz India, said, "We are thrilled to announce our first deployment of the 'ROVR' Wi-Fi Router in Pune. The 5BARz Wi-Fi device comes with the **5BARz™ Smart Experience** connectivity software and applications, which enable homes to customize their internet experience completely. We are looking forward for the positive feedback from the customers on our product experience."

The new 5BARz™ "ROVR" Wi-Fi router comes with intuitive features and state-of-the-art functionalities that will now enable Wi-Fi users to smartly monitor, manage and control their home networks while at home or away. The **5BARz™ 'ROVR' Wi-Fi Router & Smart IoT Hub** encompasses several innovative features including dual backhaul, power backup, mini Wi-Fi instances for each member, customizable bandwidth and data usage, remote monitoring, alerts and advanced IoT capabilities which can be monitored and customized with the easy-to-use 5BARz™ Smart Experience connectivity suite of applications from anywhere and at any time. The product functions as a hub for the smart devices with the built in IoT capabilities which come as a default feature in the device. As

an IoT hub, it will manage and control temperature, humidity, gas detection, motion sensors and cameras which can alert the home owners with a call or SMS.

About 5BARz India

5BARz India Private Limited is one of India's most promising technology start-ups that is well equipped to provide seamless connectivity solutions. 5BARz India is a part of 5BARz International Inc., a start-up that is delivering solutions for cellular and broadband network operators in providing clear, high quality signal and superior connectivity for their subscribers. 5BARz™ with its 2 state-of-the-art products, 5BARz™ Network Extender for cellular connectivity and the 5BARz™ Wi-Fi Router for broadband connectivity is striving to solve the problem of last mile connectivity. Due to the plug & play nature and zero installation cost, the 5BARz™ suite of products is emerging as the most attractive proposition in India.

The ultra-portable [5BARz™ Network Extender](#) incorporates a patented technology to create a high engineering based, single-piece, plug and play device that strengthens weak cellular signals by amplifying even the poorest cellular signals from 1 bar to 5 bars, ensuring uninterrupted connectivity at home and work.

The [5BARz™ 'ROVR' Wi-Fi Router & Smart IoT Hub](#) through its single-piece, plug and play device introduces a break through approach in providing uninterrupted and superior coverage and connectivity across home and work with a smart approach to broadband.
