

COMPANY OVERVIEW

TeleHealthCare Inc. develops software platform and mobile apps for the telehealthcare industry. Telehealthcare has two product lines: OnCare™ is the first telehealth platform to incorporate our proprietary Telemedicine Medical Record™ (TMR) providing HIPAA compliance, meaningful use compliance, and fully integrates with existing EMR and EHR systems including patient data, scheduling, billing and more. CarePanda™ is a secure, HIPAA compliant messaging system that runs on Apple, Android or Windows. Just like text messaging, it allows you to securely communicate with your staff and patients and is a security tool needed by all telemedicine companies and their patients. Telehealthcare, Inc. was founded in 2012 and is based in San Clemente, CA.
