## Alico Reports First Quarter Earnings

LABELLE, Fla., Feb. 15, 2008 (PRIME NEWSWIRE) -- Alico, Inc. (Nasdaq:ALCO), a land management company, announced net earnings for the first quarter of fiscal year 2008 of \$2.8 million, or \$0.38 per share, compared with net earnings of \$2.6 million, or \$0.35 per share, during the three months ended December 31, 2006.

Operating revenues during the first quarter of fiscal year 2008 totaled \$23.6 million, compared with \$26.5 million for the three months ended December 31, 2006.

John R. Alexander, Chairman and Chief Executive Officer, noted, "The decrease in operating revenues for the three months ended December 31, 2007 was due to decreased revenues from operations, primarily citrus, as a result of lower prices in the current fiscal year."

	Operating revenues Three months ended December 31,		Gross Profits Three months ended December 31,	
	2007	2006	2007	2006

=====

Addressing the divisional results for the quarter, Mr. Alexander noted that:

- Citrus prices have declined an estimated 20% during fiscal year 2008 from their prior year levels. For this reason, the Company expects profits from its citrus groves to be lower in fiscal year 2008 when compared with fiscal year 2007. Prices have declined in the Florida citrus industry due to an increasing supply of citrus as groves have recovered from the damages brought on by the hurricanes of 2004 and 2005.
- Fewer calves were sold during the three months ended December 31, 2007 compared with the three months ended December 31, 2006. As a result, cattle revenues decreased from their prior year levels. Additionally, due to a decline in calving caused by the reduced size of the cattle herd and herd stress brought about by a severe drought, the cost per calf has increased and as a result unit margins have suffered. Consequently, cattle operations are not expected to perform as well in fiscal year 2008 as they did in fiscal year 2007.
- The Company restructured a contract in October 2007, with the terms to be retroactive to the original closing in July 2005. The Company recognized approximately \$0.8 million of non-operating gain and interest income of \$1.5 million in connection with the restructure.

On September 28, 2007, the Board of Directors of the Company approved a change in the Company's fiscal year end from August 31 to September 30. The fiscal year change is effective beginning with the Company's 2008 fiscal year. The Company's 2008 fiscal year began on October 1, 2007 and will end September 30, 2008, resulting in a one month transition period that began September 1, 2007 and ended September 30, 2007.

About Alico, Inc.

Alico, Inc., a land management company operating in Central and Southwest Florida, owns approximately 135,500 acres of land located in Collier, Glades, Hendry, Lee and Polk counties.
