Bright Mountain Internet Properties Surpass Three Million Visitors During May 2015

Boca Raton, FL (PRWEB) June 17, 2015

Bright Mountain Media, Inc. (OTC: BMTM), an owner, acquirer and manager of customized websites for military and public safety audiences, today announced that the Company's portfolio of 20 websites surpassed the three million visitors threshold during May of 2015. The three million May visitors is more than four times the visitors in May, 2014.

Kip Speyer, Chief Executive Officer of Bright Mountain, commented, "We are continuing to broaden the reach of our websites' content within the military and public safety online communities through our ever-growing portfolio of web-based portals. In addition, our ongoing effort to optimize these websites, making them more interesting and adding unique content, is delivering tangible results as evidenced by the four times growth of visitors in May, 2015 vs. May, 2014, with much of that growth coming organically. During the first quarter, website traffic exceeded 7.7 million visitors, setting a company record. Our user traffic is approximately 25% less than our visitor traffic. With current market valuations being driven primarily by visitor traffic, we are optimistic about what the upward trend in our traffic portends for the valuation of our company."

Mr. Speyer continued, "Clearly, there is tremendous value being placed on websites' and apps ability to reach a meaningful audience, and we are focused on targeting a unique and under-served market. As we continue to expand our portfolio, broaden our audience and increase our website traffic, I expect our visitor numbers will continue to grow and the market place will hopefully in turn, recognize the value of our company, our brand and our website assets. No assurances can be made, however, that these values will be recognized."

About Bright Mountain Media, Inc.
