#### ***About the Marcum MicroCap Conference***

The annual Marcum MicroCap Conference is a showcase for public companies with less than \$500 million in market capitalization. This year's keynote speaker will be Richard S. Fuld, Jr., Chairman of Matrix Advisors and former Chairman of Lehman Brothers. The conference attracts fund managers and high net worth investors focusing on small cap equities. Over 2,000 participants from all segments of the microcap market attend each year, including senior management, finance and legal executives, venture and lower middle-market private equity investors, institutional investors, directors, investment bankers, buy- and sell-side analysts, and service providers to the microcap marketplace.
