About FluoroPharma Medical

FluoroPharma is a biopharmaceutical company engaged in the discovery and development of proprietary PET imaging products to evaluate cardiac disease at the cellular and molecular levels. The company has licensed technology from the Massachusetts General Hospital in Boston. The company's goal is to enable personalized medicine through precision diagnostics that will help the medical community diagnose disease more accurately at the earliest stages, leading to more effective treatment, management and better patient outcomes.

FluoroPharma's initial focus is the development of breakthrough PET imaging agents and the company is advancing two products in clinical trials for assessment of acute and chronic forms of heart disease. These novel agents have been designed to rapidly target myocardial cells. In addition to the United States, Europe and China, patents related to FluoroPharma's portfolio of imaging compounds have been issued in Japan, Canada,

Australia and Mexico. For more information on the company, please visit:

Forward-Looking Statements

Except for historical information contained herein, this release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities and Exchange Act of 1934, as amended. Statements that are not a description of historical facts constitute forward-looking statements and may often, but not always, be identified by the use of such words as "expects", "anticipates", "intends", "estimates", "plans", "potential", "possible", "probable", "believes", "seeks", "may", "will", "should", "could" or the negative of such terms or other similar expressions. Actual results may differ materially from those set forth in this release due to the risks and uncertainties inherent in FluoroPharma's business. Examples of forward-looking statements include statements regarding FluoroPharma's research and development activities and anticipated operating results. Factors which could cause actual results to differ materially from these forward-looking statements include such factors as significant fluctuations in expenses associated with clinical trials, failure to secure additional financing, the inability to complete regulatory filings with the Food and Drug Administration, the introduction of competing products, or management's ability to attract and maintain qualified personnel necessary for the development and commercialization of its planned products, the likelihood or success of reaching a definitive agreement on any proposed transaction or letter of intent, the likelihood of success of a transaction once it occurs, and other information that may be detailed from time to time in FluoroPharma's filings with the United States Securities and Exchange Commission, copies of which may be obtained from the SEC's website at www.sec.gov. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. All forward-looking statements are qualified in their entirety by this cautionary statement and FluoroPharma undertakes no obligation to revise or update this release to reflect events or circumstances after the date hereof.
