

## OTC Pink® Basic Disclosure Guidelines

Federal securities laws, such as Rules 10b-5 and 15c2-11 of the Securities Exchange Act of 1934 ("Exchange Act") as well as Rule 144 of the Securities Act of 1933 ("Securities Act"), and state Blue Sky laws, require issuers to provide *adequate current information* to the public markets. With a view to encouraging compliance with these laws, OTC Markets Group has created these OTC Pink Basic Disclosure Guidelines. We use the basic disclosure information provided by OTC Pink companies under these guidelines to designate the appropriate tier in the OTC Pink marketplace: Current, Limited or No Information. OTC Markets Group may require companies with securities designated as Caveat Emptor to make additional disclosures in order to qualify for OTC Pink Current Information tier.

**NOTE 1 – ORGANIZATION AND NATURE OF BUSINESS**

***History***

Carbon Credits International Inc. (“CCII”), which was formed on October 15, 2007 as a Nevada corporation, was the result of a spin off from Carbon Credits Industries, Inc. (“CCI”), our former parent issuer, on October 17, 2007, in which 24,196,000 shares of common stock were issued to the shareholders of CCI on a share for share basis ownership. No assets or liabilities were included in the spin off and there was no previous history or operations of CCII.

On December 23, 2011, CCII entered into a merger agreement with Lifestyle Wireless, Inc. (“LWI”), A Washington Corporation, whereby 30,008,000 shares of CCI common stock were cancelled and 6,321,830 shares of CCII common stock were issued to LWI, with CCII remaining as the surviving company. The effective date of the merger was January 10, 2012 under the Articles of Merger.

On July 1<sup>st</sup> 2013, CCII changed its name to Singlepoint Inc. (“Singlepoint” or “the Company”) and increased its authorized shares of common stock from 100,000,000 to 500,000,000 and authorized 30,000,000 preferred shares. On July 1<sup>st</sup> 2013, the ticker symbol changed from CARN to SING and received a new CUSIP number of 82932V102. The Company operates a mobile commerce and communications platform specifically designed to serve the needs of the non-profit community, as well as vendors that want to accept mobile credit card payments.

On April 1, 2013, the Company entered into an Asset Purchase Agreement to purchase the assets of Six Sigma Services, Inc. These assets were primarily customer contracts and the rights to the Six Sigma name.

On July 3, 2014, the Company formed SingleSeed, Inc., a wholly-owned subsidiary incorporated in Nevada.

In October 2014, the Company entered into an Asset Purchase Agreement to purchase the assets of GreenStar Payment Solutions, Inc.

***Going Concern***

The financial statements as of and for the periods ended June 30, 2015 and 2014 have been prepared assuming that the Company will continue as a going concern. As of June 30, 2015, the Company has yet to achieve profitable operations and is dependent on its ability to raise capital from stockholders or other sources to sustain operations and to ultimately achieve viable operations. The consolidated financial statements do not include any adjustments that might result from the outcome of these uncertainties. These factors raise substantial doubt about the Company's ability to continue as a going concern.

Our ability to continue in existence is dependent on our ability to develop our business plan and to achieve profitable operations. Our business plan involves revealing a brand new interactive website in addition to increasing SEO traffic to our website, generating more sales and customer response. Since we anticipate being unable to achieve profitable operations and/or adequate cash flows in the near term, we will continue to pursue additional equity financing through private placements of our common stock.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

***Gross vs. Net Revenue Presentation***

During the year ended December 31, 2014 the Company changed its method of presenting its billing services revenue and costs of revenue from the gross basis to the net basis, under the guidance of Emerging

Issues Task Force (“EITF”) No. 99-19 “Recording Revenue Gross as a Principal versus Net as an Agent” (“EITF No. 99-19”). This guidance requires the Company to assess whether it acts as a principal in the transaction or as an agent acting on behalf of others. Where the Company is the principal in the transaction and has the risks and rewards of ownership, the transactions are recorded gross in the statements of operations. If the Company does not act as a principal in the transaction, the transactions are recorded on a net basis in the statement of operations.

This change in presentation of the Company’s billing services resulted in a reduction of revenues and cost of revenues of \$274,000 for the quarter ended June 30, 2014, with no effect on net loss.

### ***Revenues***

Our product revenues, when earned, will result from the direct sale of our product to customers/businesses or commissions earned from the sale of mobile payment products, or from payment services provided. Our accounting policy for revenue recognition will be to record revenues and cost of revenues upon monthly customer payment for our products, or when services are provided. For billing services, the Company receives a fee for billing and collecting on behalf of third parties. The Company recognizes revenues for these billing services on a net basis, which is the net of payments collected and paid on behalf of the third parties.

### ***Revenue Sharing***

As an alternative to selling our products to customers, we can achieve revenues by sharing commissions with Independent Sales Organizations.

### ***Cash and Cash Equivalents***

The Company considers all highly liquid investments with the original maturities of ninety days or less to be cash equivalents.

### ***Convertible promissory notes***

The Company records convertible promissory notes as liabilities at their carrying value less unamortized discounts, which approximates fair value. When convertible promissory notes are converted into shares of our common stock in accordance with the debt’s terms, no gain or loss is recognized.

### ***Income Taxes***

The Company accounts for its income taxes in accordance with Income Taxes Topic 740 of the FASB, which requires recognition of deferred tax assets and liabilities for future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and tax credit carry forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in operations in the period that includes the enactment date. As of June 30, 2015, the Company had a net operating loss carryforward, however, due to the uncertainty of realization, the Company has provided a full valuation allowance for deferred tax assets resulting from this net operating loss carry forward.

### ***Earnings (loss) Per Common Share***

Basic loss per common share has been calculated based upon the weighted average number of common shares outstanding during the period in accordance with the Statement of FASB ASC 260-10, “Earnings per Share”. Common stock equivalents are not used in the computation of loss per share, as their effect would be antidilutive.

### ***Use of Estimates in the Preparation of Financial Statements***

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates and assumptions.

### ***Fair Value of Financial Instruments***

FASB ASC 825-10, "Financial Instruments," defines the fair value of a financial instrument as the amount at which the instrument could be exchanged in a current transaction between willing parties. The carrying values of our financial instruments, which consists of current assets and liabilities approximate fair values due to the short-term maturities of such instruments.

### ***Recently Issued Accounting Pronouncements***

There were various accounting standards and interpretations issued recently, none of which are expected to have a material impact on our consolidated financial position, operations or cash flows.

#### **NOTE 4 - EARNINGS PER SHARE**

The Company computes net loss per share in accordance with FASB ASC 260-10 "Earnings per Share". Under the provisions of FASB ASC 260-10, basic net loss per share is computed by dividing the net loss available to common stockholders for the period by the weighted average number of shares of common stock outstanding during the period.

Diluted loss per share is computed using the weighted average number of shares and dilutive potential common shares arising from the conversion of preferred shares into common shares at the election of the holders thereof. Potentially dilutive common shares consist of employee stock options, warrants, and unissued restricted common stock, and are excluded from the diluted earnings per share computation in periods where the Company has incurred net losses.

IRC Section 382 limits the use of NOLs to the extent there has been an ownership change of more than 50 percentage points. In addition, the NOL carry-forwards are subject to examination by the taxing authority and could be adjusted or disallowed due to such exams. Although the Company has not undergone an IRC Section 382 analysis, it is possible that the utilization of the NOLs could be substantially limited.
