# SinglePoint Expects Significant Revenues Increase as Cannabis Subsidiary Receives Initial Payment for New Major Purchase Order

SEATTLE, WA -- (Marketwired) -- 06/27/17 -- SinglePoint (OTC: SING) announces that its recently acquired DIGS Hydro subsidiary has received a major purchase order from Premier Biomedical (OTCQB: BIEI). DIGS Hydro has received the initial payment with final payment due on delivery. Based on recent discussions between the parties, Premier Biomedical plans to continue to order its supplies from DIGS Hydro, a provider of a variety of supplies and services specifically to the cannabis industry.

"This opportunity for both SinglePoint and DIGS Hydro is fantastic. We have been working very hard on making acquisitions and inside sales to boost revenues. To have this subsidiary execute on its business plan and generate major revenue for SinglePoint is exactly what we want to see. We are very excited about the second quarter financials and showing the significant revenue increase," SinglePoint CEO Greg Lambrecht states.

Premier Biomedical offers a rounded suite of products, and with DIGS Hydro has found a reliable supplier of additional products. The synergies between Premier Biomedical, DIGS Hydro and SinglePoint enable each company to quickly and efficiently grow their operations.

William Hartman CEO and co-founder for Premier Biomedical states, "We are excited we found a supplier for the products we need. This significantly increases the company's initiatives and enables us to grow the revenue of the offerings we have. We look forward to working with DIGS Hydro and SinglePoint to continue building our relationship together."

DIGS Hydro, of which SinglePoint owns a 90% stake (<http://nnw.fm/oh7ZW>), has two brick-and-mortar retail stores and has plans to open a third. As evidenced by today's news, SinglePoint's acquisition-based revenue growth strategy is gaining traction. As a result, SinglePoint expects to report a significant increase in revenues in its second-quarter financial statements. The acquisition of DIGS Hydro has also enabled SinglePoint to make numerous contacts in the cannabis industry, most of which are potential acquisition targets or customers for one of the many offerings SinglePoint has developed.

SinglePoint is diligently working to develop viable solutions, and reports that potential clients are now starting to engage with the company. SinglePoint has acquired multiple companies in the cannabis space, and is pursuing additional acquisition opportunities in the wake of increased market attention and recognition. As part of its push to increase

revenues in 2017 through acquisition and inside sales of the company services, management is negotiating multiple contracts and is onboarding new clients.

Further supporting these endeavors is SinglePoint's recent capital raise (<http://nnw.fm/G8dn5>) to fund additional projects such as Bitcoin Payments, currently in development (<http://nnw.fm/7XIMo>). This project has been green lighted and architecture for development has been completed. SinglePoint has engaged a recruiting firm to help find a block chain expert and is in negotiations with potential candidates. Additional announcements on timeline and delivery will be made soon.
