# Spindle Announces Availability of Yowza!! Restaurant POS Solution

## Cloud-Based Offering Delivers a Robust Set of Mobile Features for Restaurants, Integrated With the Yowza!! Marketing Service

SCOTTSDALE, AZ -- (Marketwired) -- 06/24/15 -- [Spindle, Inc.](#) (OTCQB: SPDL), a leading provider of unified commerce solutions, announced that its new cloud-based Yowza!! POS (point of sale) designed for the needs of restaurant operators is now available, delivering a roster of sophisticated tools enhanced with the market's first integrated 15" Android station. This SaaS-based solution features integration with Spindle's flagship Yowza!! marketing service, which offers push marketing, couponing, loyalty programs, social media functions and proximity based consumer engagement capabilities.

The Yowza!! POS Restaurant platform utilizes a large-format Android station with an easy-to-navigate, tiltable, 15-inch touch screen display. The solution incorporates a cash drawer, bar code scanner, secure magnetic card reader, customer facing display, and three-inch printer with auto-cutter, all delivered in a sleek, compact all-in-one footprint. The Yowza!! POS native Android or iOS app is compatible with standard 10-inch tablets as well.

The solution facilitates table management, inventory management, mobile-server order-taking, digital menus, remote customer ordering and curbside pick-up, remote payment integration, kitchen-based printing, support for loyalty and gift card programs, bill-splitting capabilities, and "omni-channel" functions that include a customer-facing web portal and mobile-based support, plus multi-station support for restaurant, bar and take-out functions. Optional 7" tablets can be deployed for server use and pay-at-the-table.

"We're excited to be the first to market with a single integrated large-screen format Android platform delivering a cost competitive SaaS service which delivers a wide array of features in an elegant package. Combined with the Yowza!! suite of services such as mobile engagement, beacons, and the Yowza!! consumer facing mobile app, our Yowza!! POS Restaurant solution delivers on our goal of supplying mission critical business services through the cloud. Spindle's new restaurant solution is highly functional and future-proofs the restaurateur's business as EMV compliance and digital wallets payments continue to drive evolution at the point-of-sale," said Bill Clark, chief executive officer of Spindle. "By providing these versatile capabilities at a competitive price, Yowza!! POS Restaurant delivers a compelling solution that enables merchants to seamlessly manage their business, marketing and payment processing functions from a single interface."
