5BARz™ to Dual List Shares in Canada

SAN DIEGO--(BUSINESS WIRE)-- **5BARz International (OTCQB: BARZ)** (www.5BARz.com) ("5BARz" or "the Company"), a technology leader in the cellular network extender industry and broadband networks, is pleased to announce that it is in the process of dual listing its shares on the TSX Venture Exchange stock market in Canada. The TSX Venture Exchange is a part of the Toronto Stock Exchange and is an exchange ideally suited for growth companies. Further, the company has entered into an investment banking advisory agreement with Canaccord Genuity Group, Inc. who will act as sponsor for our TSX-V listing application.

"This is a major step in our maturation as a public company as listing on the TSX-V provides us with a much more structured environment to expand our shareholder base. Obviously, our goal is ultimately to uplist onto NASDAQ, and now that we have reached commercial rollout in India, and with expected revenues in the succeeding quarters, we believe that listing on the TSX-V is a very good interim step to a NASDAQ listing," stated Gil Amelio, Chairman of the Board, 5BARz International.

"We are very excited to be working with Canaccord as our investment banker and sponsor in dual listing on the TSX-V. Their insight into the global equity markets and advice on how to get our company to the next level has been instrumental in forming our capital raising strategy," stated Daniel Bland, CEO of 5BARz International.

Once the company obtains dual listing on the TSX-V the company's shares will trade on the TSX and on the OTC market simultaneously. This move to dual list will provide added liquidity, enhance access to capital and increase investment around the world. Key markets such as India and Europe, that currently have barriers based on our OTCQB listing alone, will now have the opportunity to invest in 5BARz International.
