Ruling in Favor of Finjan for Nearly \$40 Million as Blue Coat Trial Concludes

Jury Finds Five of Six Finjan's Patents Infringed by Blue Coat Systems

EAST PALO ALTO, CA -- (Marketwired) -- 08/05/15 -- Finjan Holdings, Inc. (NASDAQ: FNJN), a cybersecurity company, announced today that the jury in *Finjan, Inc. v. Blue Coat Systems Inc.* (5:13-cv-03999-BLF) returned a unanimous verdict that Finjan's U.S. Patent Nos. 6,154,844 (the "'844 Patent"), 6,804,780 (the "'780 Patent"), 6,965,968 (the "'968 Patent"), and the 7,418,731 (the "'731 Patent") were literally infringed by Blue Coat. Further, the jury found that U.S. Patent No. 7,647,633 (the "'633 Patent") was infringed by Blue Coat under the Doctrine of Equivalents. Moreover, the jury found each of Finjan's asserted patents valid. The verdict, reached on August 04, 2015, followed a two-week trial before the Honorable Beth Labson Freeman of the U.S. District Court for the Northern District of California.

Finjan alleged that Blue Coat's products or combination of products, namely, WebPulse, ProxySG, CAS (or Content Analysis System), MAA (or Malware Analysis Appliance), and ProxyAG infringed one or more of the asserted claims of the asserted patents.

The jury also decided that Finjan was entitled to \$39,528,487.00 damages as reasonable royalties for Blue Coat's infringement.

"We are both grateful and gratified with the jury's verdict," said Julie Mar-Spinola, Finjan's Chief Intellectual Property Officer and VP, Legal. "As we have stated in our earlier Litigation Updates, we are committed to our licensing best practices and will present our patent infringement claims credibly and convincingly to establish the merits of our case, in and outside of the courtroom. Additionally, we were confident in the merits of our patent claims against Blue Coat. It is significant that the jury unanimously agreed with us on all but one."

Finjan is well-represented by Paul Andre, Lisa Kobialka, James Hannah, Hannah Lee, and Kris Kastens, and many other significant contributors from the law offices of Kramer Levin Naftalis & Frankel in Menlo Park, CA.

Finjan has also filed a second patent infringement lawsuit against Blue Coat Systems, Inc. (Blue Coat), alleging infringement of seven Finjan patents relating to new infringing Blue Coat products and services. The Complaint (5:15-cv-03295, Docket No. 1), filed July 15, 2015, in the U.S. District Court for the Northern District of California, alleges that Blue Coat's new products and services infringe seven Finjan patents. In particular, Finjan is asserting infringement of U.S. Patent Nos. 6,154,844; 6,965,968; 7,418,731; 8,079,086; 8,225,408; 8,566,580; 8,677,494; four of which are being asserted against Blue Coat for the first time. This matter has also been assigned to Judge Freeman.

Finjan has filed patent infringement lawsuits against FireEye, Proofpoint, Sophos, Symantec, and Palo Alto Networks relating to, collectively, more than 20 patents in the Finjan portfolio. The court dockets for the foregoing cases are publicly available on the Public Access to Court Electronic Records (PACER) website, www.pacer.gov, which is operated by the Administrative Office of the U.S. Courts.

ABOUT FINJAN

Established nearly 20 years ago, Finjan is a globally recognized leader in cybersecurity. Finjan's inventions are embedded within a strong portfolio of patents focusing on software and hardware technologies capable of proactively detecting previously unknown and emerging threats on a real-time, behavior-based basis. Finjan continues to grow through investments in innovation, strategic acquisitions, and partnerships promoting economic advancement and job creation.
