

Forward-Looking Statements

This presentation contains forward-looking statements within the meaning of the federal securities laws. All statements other than statements of historical fact are forward looking statements that involve risks and uncertainties. When used in this discussion, we intend the words "anticipate," "believe," "contemplate," "continue," "could," "estimate," "expect," "future," "hope," "intend," "may," "might," "objective," "ongoing," "plan," "potential," "predict," "project," "should," "strive," "target," "will," "would" and similar expressions as they relate to us to identify such forward-looking statements. Our actual results could differ materially from the results anticipated in these forward-looking statements as a result of certain factors set forth under "Risk Factors" and elsewhere in our filings with the U.S. Securities and Exchange Commission, including in our Annual Report on Form 10-K for the year ended December 31, 2024. Risks and uncertainties that could cause actual results to differ include, without limitation: our ability to attract new members and retain existing members; our ability to compete effectively, including for customer engagement with different modes of entertainment; maintenance and expansion of device platforms for streaming; fluctuation in customer usage of our service; fluctuations in quarterly operating results; service disruptions; production risks; general economic conditions; future losses; loss of key personnel; price changes; brand reputation; acquisitions; new initiatives we undertake; security and information systems; legal liability for website content; failure of third parties to provide adequate service; future internet-related taxes; our founder's control of us; litigation; consumer trends; the effect of government regulation and programs; the impact of public health threats; and other risks and uncertainties included in our filings with the Securities and Exchange Commission. We caution you that no forward-looking statement is a guarantee of future performance, and you should not place undue reliance on these forward-looking statements which reflect our views only as of the date of this presentation. We undertake no obligation to update any forward-looking information.

Business Model – What is Gaia?

Premium SVOD channel with exclusive, high-engagement niche content in three core categories.

- \$13.99/month or \$119/year (Ad Free)
- Gaia+ \$299/year (Premium live broadcasts)

Content categories:

- Personal Growth & Transformation
- Ancient Wisdom & Unexplained Mysteries
- Wellness, Yoga & Meditation

Core Demographic:

- 65% Female
- 45-65 years old

- Highly educated
- \$75k+ Household income

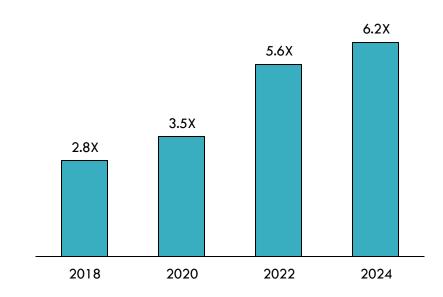

Finance Highlights

Strong unit economics with negative working capital:

- Positive Free Cash Flow for last six quarters¹
- 86% Gross Margin & 93% Cash Contribution
- Accelerating CAC-to-LTV growth efficiency

LTV-CAC Efficiency Ratio

²⁾ Estimated member-based replacement cost of \$346 average per member

³⁾ Campus Mortgage

⁴⁾ Estimated Gaia ownership of Igniton, based on implied post-money valuation of \$106 million net of book value

Appendix

Non-GAAP Measures

In addition to disclosing financial results calculated in accordance with United States generally accepted accounting principles (GAAP), the financial information includes Free Cash Flow, EBITDA, Adjusted EBITDA and related measure of margin, all non-GAAP financial measures. These non-GAAP measures should not be considered a substitute for, or superior to, financial measures and results calculated in accordance with GAAP, including net loss attributed to common shareholders and operating cash flow, and reconciliations to GAAP financial statements should be carefully evaluated.

EBITDA represents net loss attributed to common shareholders before interest expense, income tax expense, and depreciation and amortization. Adjusted EBITDA is defined as EBITDA further adjusted to remove share-based compensation expense. EBITDA and Adjusted EBITDA do not represent measures of net loss attributed to common shareholders, as that term is defined under GAAP, and should not be considered as an alternative to net loss attributed to common shareholders or as an indicator of our operating performance.

Additionally, EBITDA and Adjusted EBITDA are not intended to be measures of free cash flow available for management or discretionary use as such measures do not consider certain cash requirements such as capital expenditures, tax payments and debt service requirements. EBITDA and Adjusted EBITDA as presented herein are not necessarily comparable to similarly titled measures.

Free Cash Flow represents net cash provided by operating activities plus cash paid for interest payments, less cash used in capital expenditures, plus cash from non-core business activities. We believe Free Cash Flow is also useful as one of the bases for comparing the Gaia's performance with its competitors. Although Free Cash Flow and similar measures are frequently used as measures of cash flows generated from operations by other companies, Gaia's calculation of Free Cash Flow might not necessarily be comparable to such other similarly titled captions of other companies.

We believe that both management and investors benefit from referring to these non-GAAP financial measures in assessing our performance and when planning, forecasting and analyzing future periods. EBITDA, Adjusted EBITDA, Free Cash Flow, and related measure of margin are key performance measures management uses to assess Gaia's operating performance and to facilitate internal comparisons to our historical performance. We believe EBITDA, Adjusted EBITDA, Free Cash Flow, and related measure of margin are useful metrics to investors, enabling them to better assess Gaia's operating performance in the context of current period results and provide for better comparability with Gaia's historically disclosed Free Cash Flow, as well as allowing greater transparency with respect to the key metrics used by management in its financial and operational decision-making. Additionally, investors and the analyst community use these non-GAAP financial measures to help them analyze the health of our business.
