“As we continue to navigate the challenging federal contracting environment, we are implementing our strategy to build on our core capabilities and to move into new and more profitable markets,” said Maurice “Mo” Gauthier, VSE CEO. “Our initiatives for future growth are focused on providing value to our clients by adapting our competencies in vehicle, ship, and aircraft sustainment, service life extension and logistics to the needs of adjacent

markets. Our Wheeler Bros., Inc. (WBI) subsidiary continues to exceed our expectations. WBI's supply chain services to both traditional and commercial markets have encouraged us to focus on this part of our business, while we continue to better position ourselves through our recent consolidation efforts to defend our traditional market base."

Revenues were \$102 million in the third quarter of 2014 compared to \$111 million in the third quarter of 2013. For the first nine months, revenues were \$329 million in 2014 compared to \$349 million in 2013. The completion of the Treasury Seized Asset Program in March 2014 in our International Group resulted in a decrease in our revenue of \$9 million for the third quarter of 2014, and \$18 million for the first nine months of 2014, as compared to the same period in 2013. Revenue increases in our Supply Chain Management Group in the third quarter and year-to-date offset revenue decreases in our Federal Group and IT, Energy and Management Consulting Group.

Operating income was \$7.2 million for the third quarter of 2014 compared to \$9.5 million in the third quarter of 2013. For the first nine months, operating income was \$29.2 million in 2014 compared to \$32.1 million in 2013. WBI's operating performance has increased the likelihood that certain earn-out thresholds in our 2011 WBI acquisition agreement will be satisfied. Consequently, we recorded charges for our earn-out payment obligation to WBI's former stockholders, which reduced our operating income by approximately \$2 million for the third quarter and \$2.8 million for the first nine months of 2014. Additionally, we recorded approximately \$400 thousand in severance costs in the third quarter of 2014 related to the consolidation of two operating groups.

Net income was \$3.9 million for the third quarter of 2014, or \$0.72 per diluted share, compared to \$5.3 million, or \$1.00 per diluted share for the third quarter of 2013. Net income was \$15.2 million for the first nine months of 2014, or \$2.83 per diluted share, compared to \$17.4 million, or \$3.27 per diluted share for the first nine months of 2013.

Bookings were \$292 million for the first nine months of 2014 compared to revenue of \$329 million for the same period. Funded contract backlog at September 30, 2014 was \$194 million, compared to \$173 million at June 30, 2014 and \$268 million at September 30, 2013.

Update on U.S. Army Reserve Program

The U.S. Army Reserve has been affected by Department of the Army budget reductions, resulting in a year to date reduction in our revenues and profit margins on this program compared to previous years. This program generated approximately \$39.6 million in revenue for the first nine months of 2014 and approximately \$45.4 million in revenue for the first nine months of 2013. Contractual coverage on a portion of the work on our current task orders expired in August 2014, and revenue will be lower going forward. Revenue for this program was approximately \$2.7 million for September 2014.

Group Consolidation

We are adjusting our operating model to become more competitive and profitable. As previously announced, we have eliminated certain executive management positions and will be consolidating our International and Federal Groups. We will report their results as a single operating group beginning in 2015. Under this program, we have incurred approximately \$400 thousand in severance costs in the current third quarter and expect to provide an

estimated \$4 million in savings on an annual pre-tax basis beginning in the fourth quarter of 2014.

Third Quarter Operational Highlights

- Revenues of our WBI subsidiary have increased approximately \$5 million, or 12%, for the third quarter of 2014 as compared to the same period for the prior year. WBI's revenues increased approximately \$13 million or 12%, for the nine months ended September 30, 2014 as compared to the same period for the prior year.
- Our International Group received several delivery orders totaling more than \$17 million to continue work under its Foreign Military Sales (FMS) Naval Ship Transfer and Repair (N*STAR) contract through the Naval Sea Systems Command (NAVSEA) International Fleet Support Program.
- One-year options were exercised on two Firm Fixed Price (FFP) task orders, held by our Federal Group, under its Field and Installation Readiness Support Team (FIRST) prime contract to continue the support services to the U.S. Army Reserve Command (USARC) for its 63rd and 88th Regional Support Command (RSC) Logistics Readiness Support programs, based out of Fort McCoy, WI. The total combined ceiling for the option year for both task orders is approximately \$26.8 million.
