“We are successfully integrating our Aviation Group acquired on January 28, 2015, and continue to execute our strategy to expand our markets for sustainment services outside our traditional federal customer base,” said Maurice “Mo” Gauthier, VSE CEO. “Our Aviation Group has made a meaningful contribution to our operating performance and the addition of this group is having the desired effect of diversifying and strengthening the quality of our revenues. Our Federal Services Group received several contract awards during this quarter supporting the U.S. Army. Our Supply Chain Management Group continues to be the strongest contributor to our operating results.”

For the second quarter of 2015, revenues were \$131 million compared to \$108 million in the second quarter of 2014. For the first six months, revenues were \$252 million in 2015 compared to \$227 million in 2014. The inclusion of our Aviation Group and revenue increases from our Supply Chain Management Group offset revenue declines from our Federal Services Group.

Operating income was \$11.5 million for the second quarter of 2015 compared to \$10.7 million for the second quarter of 2014. For the first six months, operating income was \$22.2 million in 2015 compared to \$22.1 million in 2014. Operating income increases resulted from growth in our Supply Chain Management Group and the addition of our Aviation Group, and were offset mainly by operating losses in our Federal Services Group.

Net income was \$5.5 million for the second quarter of 2015, or \$1.02 per diluted share, compared to \$5.7 million, or \$1.06 per diluted share for the second quarter of 2014. Net income was \$10.7 million for the first six months of 2015, or \$1.99 per diluted share, compared to \$11.3 million, or \$2.11 per diluted share for the first six months of 2014.

We believe that funded backlog and bookings are not useful indicators of future revenues for our Supply Chain Management and Aviation Groups. Therefore, we have revised our disclosure relative to bookings and funded contract backlog to consist only of our Federal Services and IT, Energy and Management Consulting Groups. Bookings for these groups were \$87 million for the six months of 2015 as compared to revenue of \$103 million. Funded contract backlog at June 30, 2015 was \$176 million, compared to \$185 million at March 31, 2015 and \$177 million at June 30, 2014.

Q2 Operational Highlights

- Revenues from our Supply Chain Management Group, which provides supply chain support for truck fleets, increased by 13.5% for the first six months of 2015 as compared to the same period of 2014.
- VS2, LLC, our joint venture between VSE’s Federal Services Group and CB&I Federal Services, was awarded a Logistics Support Services task order under the U.S. Army’s Enhanced Army Global Logistics Enterprise (EAGLE) Program to support base operations and logistics at Fort Benning, Georgia. This task order has a base year, four one-year options, and one six-month option. The total potential value of the task order is \$263 million, and VSE’s potential value is approximately \$110 million, if all option

periods are exercised.

- Our Federal Services Group was selected as one of 20 prime contractors for the U.S. Army Tank-Automotive and Armament Command's (TACOM) Strategic Services Solutions (TS3) Equipment Related Services (ERS) contract. The Federal Services Group will compete with other prime contractors for task order awards under this indefinite-delivery, indefinite-quantity (IDIQ) contract, which has a combined maximum ceiling value of \$1.1 billion and an eight-year period of performance if all options are exercised.
- VSE's Federal Services Group also was named one of 19 prime contractors on the TACOM TS3 Research and Development (R&D) IDIQ contract, which has a combined maximum ceiling value of \$634 million and an eight-year period of performance if all options are exercised.
- Joseph "JR" Brown was appointed in May to serve as the President of our Federal Services Group.
- Our Akimeka subsidiary was awarded a task order under the Chief Information Officer - Solutions and Partners 3 (CIO-SP3) Government-Wide Acquisition Contract (GWAC) for core development and sustainment for the Joint Medical Asset Repository (JMAR) system. This Firm Fixed Price (FFP) task order has an 11-month base period of performance, plus three one-year option periods, and a total contract value of approximately \$14.9 million, if all options are exercised.
