"We are pleased with our second quarter financial results given the inflationary pressures during the quarter," Jon Isaac, President and CEO of Live Ventures, commented. "Additionally, in the same period last year, our retail segment's strong revenues were driven by the U.S. Government's stimulus payments, which we did not have this year."

Mr. Isaac continued, "We remain confident in our businesses' long-term outlook and will continue executing our strategic plan to maximize stockholder value. Along those lines, we took the opportunity to repurchase 65,668 shares during the quarter, or approximately 2% of our diluted common shares."

During the second quarter, the Company's capital structure was simplified by the conversion of its Series B convertible preferred stock into shares of the Company's common stock. The conversion had no impact on the fully diluted share count and there is no longer any Series B preferred stock outstanding.

Second Quarter FY 2022 Financial Summary (in thousands except per share amounts)

	During the three months ended March 31,						
	 2022		2021	% Change			
Revenue	\$ 69,706	\$	70,890	-1.7%			
Operating Income	\$ 8,449	\$	11,125	-24.1%			

Net income	\$ 15,358 \$	8,734	75.8%
Diluted earnings per share	\$ 4 84 \$	2 66	82 0%

Second quarter 2022 revenue of \$69.7 million decreased 1.7%, primarily due to decreased revenue of \$3.3 million in the retail segment as a result of the impact of additional U.S. Government stimulus payments during the prior year's second quarter that allowed for more discretionary consumer spending in that period at Vintage Stock locations.

Operating income of \$8.4 million for the second quarter of 2022 decreased 24.1%, as compared with the prior year period, primarily due to increases in raw material costs as a result of inflationary pressures, increased employee compensation, and other operating expenses that were higher in the current quarter as compared with the second quarter of 2021 which were lower due to the pandemic.

Net income of \$15.4 million and diluted EPS of \$4.84 for the three months ended March 31, 2022 increased 75.8% and 82.0%, respectively, as compared with the prior year period. Net income includes approximately \$11.4 million or \$3.58 per diluted share for a gain on bankruptcy settlement in the current period and approximately \$2.5 million or \$0.76 per diluted share for a gain on bankruptcy settlement and a gain on payroll protection program loan forgiveness in the prior period.

Adjusted EBITDA of \$10.3 million decreased by approximately \$3.1 million, or 23.0%, for the second quarter 2022, as compared to the prior year period. The decrease is primarily due to decreases in revenue and increases in SG&A expenses.

As of March 31, 2022, the Company had total cash availability of \$38.0 million, consisting of cash on hand of \$6.2 million and cash availability under its various lines of credit of \$31.8 million, and total assets of \$225.3 million. Stockholders' equity was \$94.9 million as of March 31, 2022.

Retail

Second quarter 2022 Retail Segment revenue of \$20.7 million decreased approximately \$3.3 million or 13.6%, as compared with the prior year period. The decrease in revenue is due to the impact of additional U.S. Government stimulus payments during the prior year's second quarter that allowed for more discretionary consumer spending in that period at Vintage Stock locations. Cost of revenue decreased in the current quarter in line with the decrease in revenues. General and administrative expense increased primarily due to increases in employee compensation and related costs as a result of Vintage Stock opening new locations. Cost of revenue for the second quarter of 2022 increased primarily due to increases in raw material costs as a result of inflationary pressures. Sales and marketing expense increased for the three months ended March 31, 2022, primarily due to increased compensation associated with the sales force. Steel Manufacturing

Second quarter 2022 Steel Manufacturing Segment revenue of \$14.0 million increased by approximately \$0.2 million, or 1.7%, as compared with the prior year period, primarily due to increasing sales prices resulting from rising costs. Operating income for the three months ended March 31, 2022 was approximately \$2.7 million for the Steel Manufacturing Segment, as compared to operating income of approximately \$1.7 million in the prior year period. The increase in operating income is primarily due to an increase in

gross profit.

Non-GAAP Financial Information

Adjusted EBITDA

We evaluate the performance of our operations based on financial measures such as revenue and "Adjusted EBITDA." Adjusted EBITDA is defined as net income (loss) before interest expense, interest income, income taxes, depreciation, amortization, stock-based compensation, and other non-cash or nonrecurring charges. We believe that Adjusted EBITDA is an important indicator of the operational strength and performance of the business, including the business's ability to fund acquisitions and other capital expenditures, and to service its debt. Additionally, this measure is used by management to evaluate operating results and perform analytical comparisons and identify strategies to improve performance. Adjusted EBITDA is also a measure that is customarily used by financial analysts to evaluate a company's financial performance, subject to certain adjustments. Adjusted EBITDA does not represent cash flows from operations, as defined by generally accepted accounting principles ("GAAP"), should not be construed as an alternative to net income or loss, and is indicative neither of our results of operations, nor of cash flows available to fund all of our cash needs. It is, however, a measurement that the Company believes is useful to investors in analyzing its operating performance. Accordingly, Adjusted EBITDA should be considered in addition to, but not as a substitute for, net income, cash flow provided by operating activities, and other measures of financial performance prepared in accordance with GAAP. Adjusted EBITDA is a non-GAAP financial measure. As companies often define non-GAAP financial measures differently, Adjusted EBITDA, as calculated by Live Ventures Incorporated should not be compared to any similarly titled measures reported by other companies.
