

## Company Overview

Avalanche International Corp (OTC: AVLP), a Nevada corporation since April 14, 2011, operates as a holding company as MTIX International, Inc., ("DBA"), with no direct operations. MTIX International is dedicated to the commercialization of the innovative, proprietary technology known as Multiplexed Laser Surface Enhancement ("MLSE®") developed by the Company's subsidiary, MTIX, Ltd.

We have two operational units, MTIX, Ltd. and Restaurant Capital Group, LLC. We suggest that MTIX International, Inc. be considered an "impact" investment.

Multiplexed Laser Surface Enhancement (MLSE®) MLSE® is a unique technology that has the ability to treat both natural and synthetic textiles for a wide variety of functionalities; these include dyeability and printing enhancements, hydrophilicity, hydrophobicity, fire retardancy and anti-microbial properties. The use of water, harmful chemicals and energy is significantly reduced in comparison to conventional textile treatment methods. The MLSE® process is instantaneous in the reaction zone, due to rapid reaction synthesis for any required functional properties.
