"Exiting 2015 we are beginning to realize the benefits of the actions we took during the first half of the year to establish a leaner cost structure, more stringent production processes and product enhancements to improve profitability," commented Steven Esses, Arotech's President and CEO. "New contract orders of \$29.3 million during the fourth quarter added meaningfully to our backlog of business. Domestic and international demand for our training and simulation products remains robust with new orders and contract modifications from both existing customers and new relationships. Recent contract awards are the result of our longer-term vision to offer cost-effective and innovation solutions to our customers and support the basis for future financial performance."

"Our acquisition of UEC in the first half of 2014 has been highly complementary to our core battery and power systems business," added Esses. "The electronic engineering and

manufacturing expertise acquired through this transaction are proving to be beneficial to our pursuit of new business and the streamlining of our cost structure as we share resources and extract synergies across the enterprise."

"A key part of our efforts to reposition the company for profitable growth is improving our corporate governance," continued Esses. "As part of this, we have established the post of Lead Independent Director, creating a liaison between the independent directors and management, and we are pleased to welcome Jon B. Kutler, a recognized investor, investment banker and expert in the aerospace and defense industries who joined our Board this past month, to this role. We are also adding two additional highly-experienced leaders to our board: Carol J. Battershell, the Deputy Director for Energy Systems in the Office of Energy Policy and Systems Analysis, who joined our board this past month, and Rear Admiral (Ret.) James J. (JJ) Quinn, a distinguished leader who spent 30 years in the United States Navy, including tours of duty as Director of Operations, Plans, Policy and Training with the Atlantic Fleet, who will be a nominee for director at our next annual meeting. Each of these directors has a tremendous range of executive experience, particularly in our core business areas of defense and military operations. We are fortunate to have these esteemed business and industry experts join our team. Their experience and guidance will be invaluable as we execute our vision for Arotech."

Esses concluded, "We entered 2016 with strong momentum. Given our current visibility, and a healthy pipeline of new opportunities, we expect to return to growth during the year and be much more profitable as a result of our efforts in 2015."

Fourth Quarter Financial Summary

Revenues for the fourth quarter were \$27.4 million, compared to \$28.6 million for the comparable period in 2014. The year-over-year decrease was driven by unexpected program delays on existing orders in the Power Systems division and delays of new orders that have shifted to future quarters.

Gross profit for the fourth quarter was \$8.0 million, or 29.0% of revenues, compared to \$7.4 million, or 25.9% of revenues, for the prior year period.

Operating income for the fourth quarter of 2015 was \$893,000, compared to an operating loss of \$(1.3) million for the corresponding period in 2014. Operating expenses were \$26.5 million in the fourth quarter of 2015 compared to \$29.9 million in the year ago quarter.

Total other income for the fourth quarter of 2015 was a loss of \$(233,000) compared to \$1.8 million for the corresponding period in 2014.

The Company's net income for the fourth quarter was \$399,000, or \$0.02 per basic and diluted share, compared to \$312,000, or \$0.01 per basic and diluted share, for the corresponding period last year.

Adjusted Earnings per Share (Adjusted EPS) for the quarter was \$0.06 compared to \$0.02 for the corresponding period in 2014.

Adjusted Earnings Before Interest, Taxes, Depreciation and Amortization (Adjusted

EBITDA) for the fourth quarter was approximately \$2.3 million compared to \$1.0 million for the corresponding period of 2014.

2015 Full-Year Financial Summary

Revenues for the full-year 2015 were \$96.6 million, compared to \$103.6 million for full-year 2014. The year-over-year decrease was driven, in large part, by unexpected program delays on existing orders in the Power Systems division and delays of new orders that have shifted to future quarters.

Gross profit for the year was \$28.1 million, or 29.1% of revenues, compared to \$32.7 million, or 31.6% of revenues, for the prior year. The decline in gross margin is the result of decreased revenues in the Power Systems Division.

The operating loss for the full-year 2015 was \$(2.9) million, compared to operating income of \$3.5 million for the full-year 2014. Operating expenses in 2015 decreased by \$2.9 million compared to 2014, primarily due to decreased revenues.

Total other income for 2015 was a loss of \$(1.2) million compared to a gain \$1.0 million in 2014. The change was primarily due to a fair market value adjustment of the potential 2015 earn-out due to the previous owners of UEC.

The Company's net loss for 2015 was \$(2.9) million, or \$(0.12) per basic and diluted share, compared to net income of \$3.5 million, or \$0.16 and \$0.15 per basic and diluted share, respectively, for the corresponding period last year.

Adjusted Earnings per Share (Adjusted EPS) for 2015 was \$0.08 compared to \$0.31 in 2014.

Adjusted Earnings Before Interest, Taxes, Depreciation and Amortization (Adjusted EBITDA) for 2015 was \$5.1 million compared to \$10.0 million for 2014.

Arotech believes that information concerning Adjusted EBITDA and Adjusted EPS enhances overall understanding of its current financial performance. Arotech computes Adjusted EBITDA and Adjusted EPS, which are non-GAAP financial measures, as reflected in the tables below.
