# **Investment Highlights**

#### IEGH 2Q17 results show reduced expenses

IEGH released 2Q17 results in on August 1, 2017, which showed a reduction in operating costs, an improved balance sheet, and included the announcement of a dividend of \$0.005 per common share. Revenues, primarily consisting of interest revenue, were \$413,941 in 2Q17 versus \$467,382 in 1Q17 and \$545,356 in 2Q16. The 24.1% decline was primarily the result of lower interest revenues in the period, as we believe management was focused on reducing operating costs and corporate actions.

1H17 operating expenses were down by 30.4% YoY to \$2,284,021 from \$3,283,289. Expenses related to the operating the business, such as salaries, advertising, and rent were down substantially, driving this trend. Net loss in the first half of 2017 was (\$1.6mn), significantly reduced from a loss of (\$2.2mn) in 1H16. For the quarter, EPS came in at a loss of (\$0.10) versus (\$0.13) in the yearago period.

# Improved balance sheet highlights compelling valuation at recent prices

We note that at the end of 2Q17, IEGH had cash on hand of \$3.7mn (\$0.29 per share) and net shareholders' equity of \$8.8mn (\$0.69 per share), versus the recent close of \$0.48 on August 3, 2017. The primary cause of the increase in cash and assets was the sale of OneMain shares acquired in the company's tender offer, which concluded in June 2017. Management stated that the company would use the increased cash on hand and receivables from its loan book to increase lending activities and support its quarterly dividend.

## IEGH announces second quarterly dividend, now yielding 4.2%

As part of the results announcement, IEGH declared that it would pay a shareholder dividend of \$0.005 per common share. The dividend is payable on August 21, 2017 to stockholders of record at the close of business on Friday, August 11, 2017. #### **ADDITIONAL NOTES**

- As indicated in the table above, IEGH reported revenues of \$413,941 in 2Q17 versus \$467,382 in 1Q17 and \$545,356 in 2Q16. The 24.1% decline was primarily the result of lower interest revenues in the period, as we believe management was focused on reducing operating costs and corporate actions.
- Interest Revenues came in at \$400,986, versus \$526,380. Other revenues were \$12,955 in 2Q17 versus \$18,976 in 2Q16.
- **IEGH operating expenses decline**. Management continued to focus on reducing operating expenses. 1H17 expenses were down by 30.4% YoY to \$2,284,021 from \$3,283,289. In 2Q17, Salaries & Compensation expenses declined further to \$118,925 from \$120,278 in 1Q17 and \$406,323 in 2Q16. Total Operating expenses in the quarter declined by 26.9% to \$1,312,550 in 2Q17 versus \$1,796,561 in the year-ago period.
- EPS of (\$0.10) in 2Q17. IEGH reported a GAAP net loss of (\$1.05mn) in 2Q17, or (\$0.10) per share. Average shares outstanding (split-adjusted) were 10.2mn in the quarter, versus 9.4mn in 2Q16. Management has stated that it is targeting positive adjusted net income by the end in 2017.
- Balance Sheet & Liquidity Update: IEGH's balance sheet improved during the quarter. The company's cash on hand rose to \$3.7mn at the end of the quarter, versus \$0.3mn at the end of 2016. Net cash per share is now \$0.29 following shares issued as part of the OneMain tender offer. 2Q17 total assets at the end of the period were \$8.9mn, with liabilities of just \$115,002, resulting in positive net shareholder's equity of \$8.8mn, or \$0.69 per share.

# Equity | Financials / Specialty Finance August 9, 2017

- Loans Receivable Overview: Loans receivable continues to represent the largest asset on IEGH's balance sheet, at \$5.1mn. At June 30, 2017, 74 loans with a total balance of \$335,563 were delinquent or in default, according to the company's 10-Q filing with the SEC.
- Cash Flow Improves: We note that there is a significant difference between net loss and cash used in operations for IEGH, and that cash used in operations has improved significantly year-over-year. Cash used in operations in 1H17 was (\$0.68mn), down from (\$1.29mn) in 1H16. Cash from Investing Activities resulted in a net inflow of capital of \$4.1mn, primarily due to the sale of OneMain securities during June.
- Transaction Volume Update: IEGH reported that since January 2016, cumulative loan volume has increased by 33.8% from \$10,989,023 to \$14,699,023, as of July 31, 2017. This represented only a modest increase in cumulative loans issued of \$14,249,023, as of March 31, 2017. We believe this is the result of the company being focused on improving its balance sheet, implementing cost controls, and allocating time and resources towards corporate actions.
- We see this as an important metric to track, as loan volume is a core driver of the company's business and potential profitability. We are hopeful IEGH will seek to increase the loan book in the second half of the year.

# IEGH declares quarterly dividend of \$0.005, yielding 4.2% as of August 3, 2017

- **IEGH declares 2Q17 quarterly dividend of \$0.005.** As part of its 2Q17 results announcement, IEGH declared its second common shareholder dividend. The company will pay a cash dividend of \$0.005 per common share for the second quarter of 2017.
- The dividend is payable on August 21, 2017 to stockholders of record at the close of business on Friday, August 11, 2017. In the announcement, IEGH Chairman and CEO Paul Mathieson stated that IEGH expects to pay quarterly dividends on an ongoing basis.
- 4.2% Implied Annualized Dividend Yield: At the recent close of \$0.48 on August 3, 2017, the annualized dividend of \$0.02 per share represents an 4.2% yield on common equity, assuming the company pays future dividends at the same rate as 1Q17 and 2Q17.

### Update on corporate actions

- IEGH closed its tender offer for OneMain Holdings Inc. shares on June 16, 2017. The company issued 3.04mn shares of common stock, and received 151,994 shares of OneMain stock.
- IEGH sold its shares of OneMain on June 22, 2017, resulting in cash proceeds of \$3.4mn and a realized loss on a sale of marketable securities of \$153.514.
- IEGH briefly issued a new tender offer for Lending Club Corporation on July 12, 2017, but has since determined not to pursue this action. Additionally, IEGH stated in its 2Q17 10-Q that it has no intention of pursuing further tender offers.

# \$5.20 target for IEGH

- We are updating our target to reflect recent results, new expectations, and the increase in share outstanding since the OneMain tender offer. We note that recent prices appear to offer compelling value in light of IEGH's cash position of \$0.29 per share and net asset value of \$0.69 per share at the end of 2Q17, as well as its annualized dividend of \$0.02 per share.
- We now forecast 2017E revenues of \$2.4mn, versus our prior estimate of \$3.8mn. Our 2018E estimates move to \$3.8mn and EPS of (\$0.03). Management has indicated that it will deploy a portion of its increased cash on hand to grow its loan book, which should drive growth in 2H17 and in future years.
- We see IEGH as a speculative consumer finance company with growth potential given the relatively low structural costs of its online lead generation model. With the recent right-sizing in the company's operating expenses, we see the potential for high earnings leverage if the company can grow its loan book to a point where scale surpasses public company costs while executing on new loan issuances and risk management.
