InfuSystem Holdings, Inc. Reports Third Straight Quarterly Profit

Company Continues To Improve Liquidity Position

MADISON HEIGHTS, Mich.-- InfuSystem Holdings, Inc. (NYSE MKT: INFU) (“InfuSystem” or the “Company”), a leading national provider of infusion pumps and related services for the healthcare industry in the United States, today reported its third consecutive quarter of profitability in the first quarter ending March 31, 2013.

Net income in the first quarter was \$0.1 million, equal to \$0.00 per diluted share, compared to a \$0.9 million net loss, or \$0.04 loss per diluted share, in the prior year period. Gross profit for the three months ending March 31, 2013, was \$10.4 million, consistent with the same prior year period.

“Our industry in general and InfuSystem in particular are well-positioned for continued growth,” said Eric Steen, who joined the Company as Chief Executive Officer on April 1, 2013. “We are firmly committed to organic growth as a means to further strengthen our position in a highly competitive environment. We remain vigilant about managing costs, and will seek to further increase free cash flow and reduce debt. Finally, as evidenced by our recent hiring of an accomplished Chief Information Officer, we will use technology to increase connectivity with all stakeholders – especially patients, who are number one priority,” he concluded.

Revenues in the first quarter of 2013 were \$14.7 million, up 2% from \$14.3 million in the first quarter of 2012. The increase in revenues is primarily related to the addition of larger customers, increased penetration into existing customer accounts, continuation of the revision to claims processing guidelines by a major group of third-party payors and a one-time delay in billing to certain payors caused by the requirement of additional paperwork.

SG&A decreased to \$7.4 million from \$9.0 million, down approximately 18%, when compared to the first quarter of 2012. The decrease was primarily attributed to prior year costs of \$1.5 million pertaining to the special meeting, changes in the composition of the Board of Director’s, and retention payments made to key employees in connection with the change in senior management.

Other expenses were consistent for the three months ended March 31, 2013 compared to the similar period in 2012; however the breakdown included \$0.3 million of additional interest expense due to the cost of the new debt facility. This was offset by a one-time cash receipt of \$0.3 million related to a mutual insurance policy.

“We are very pleased to have further strengthened the balance sheet, especially reducing total debt by \$2.8 million during the first quarter of 2013,” said Jonathan P. Foster, Chief

Financial Officer.

Operating Results

Gross profit for the three months ended March 31, 2013 was \$10.4 million, which was consistent with the same period in the prior year. It represented 71% of revenues in the current period compared to 73% in the prior year. The decrease in the gross margin as a percentage of revenue in 2013 was primarily related to an increase in connectivity costs with our customers.

Selling and marketing expenses were \$2.4 million compared to \$2.7 million for the three months ended March 31, 2012. The decrease in selling and marketing expenses was mainly attributed to lower travel, entertainment and salaries.

During the months ended March 31, 2013, general and administrative expenses were \$5.0 million compared to \$6.3 million for the same prior year period. General and administrative expenses have decreased from 44% to 34% of revenues for the first quarter of 2013 compared to the same period in the prior year. The decrease was primarily attributed to prior year costs of \$1.5 million pertaining to the special meeting, changes in the composition of the Board of Directors, and retention payments to key employees during the major change in senior management. These prior year charges were offset by \$0.3 million of expenses during the three months ended March 31, 2013 due primarily to fees related to the CEO search, the final Severance Payment made to the former CEO and one-time payments to a Board member (the "Transition Costs").

Adjusted EBITDA was \$3.7 million for the first quarter of 2013 compared to \$3.4 million in 2012. The Company utilizes Adjusted EBITDA as a means to measure its operating performance. A reconciliation from Adjusted EBITDA, a non-GAAP measure, to net income can be found in the appendix.

Financial Condition

Net cash provided by operations for the three months ended March 31, 2013 was \$1.6 million compared to a use of cash of less than \$0.1 million for the prior year. The increase is primarily attributed to decreased general and administrative costs of \$1.3 million when compared to the three months ended March 31, 2012. This includes professional fees of \$0.9 million related to the special meeting and change in members of the Board of Directors, and a retention payment of \$0.6 million paid to employees during the major change in senior management. The decreases were partially offset by an increase of \$0.3 million of expenses during the three months ended March 31, 2013 due primarily to transition costs.

As of March 31, 2013, we had cash and cash equivalents of \$0.5 million and \$7.0 million of availability on the revolving line-of-credit compared to \$2.3 million and \$4.7 million, respectively, at December 31, 2012. During the three months ended March 31, 2013, the Company paid down \$2.8 million of total debt.

Conference Call

The Company will conduct a conference call for investors on Tuesday, May 14, 2013 at 9:00 a.m. Eastern Time to discuss first quarter performance and results. Eric Steen, Chief

Executive Officer, and Jonathan P. Foster, Chief Financial Officer, will discuss the Company's financial performance and answer questions from the financial community. To participate in this call, please dial in toll-free (888) 895-5271 and use the confirmation number 34802235.
