InfuSystem Holdings, Inc. Reports First Quarter 2015 Financial Results

First Quarter 2015 Net Collected Rental Revenues UP 12%

Increases Guidance to Double-Digit Net Collected Rental Revenue Growth for 2015

MADISON HEIGHTS, Mich., May 12, 2015 /PRNewswire/ -- InfuSystem Holdings, Inc. (NYSE MKT: INFU) ("InfuSystem" or the "Company"), a leading national provider of infusion pumps and related services for the healthcare industry in the United States, today reported financial results for the quarter ended March 31, 2015.

Highlights for the first quarter of 2015 included:

- Net Revenues totaled \$16.7 million versus first quarter 2014 net revenues of \$17.2 million, which benefited from an opportunistic pump sale of approximately \$0.9 million in the first quarter of 2014.
- Net Collected Rental Revenues increased 12% over last year's comparable quarter.
- Bad debt decreased 43% due as a result of increased focus on new payor contracts and focus on patient collections.
- Gross margin improved 224 basis points to 72.3%.
- Investment of approximately \$0.4 million to expand information technology capabilities and pain management initiatives.
- Arranged new \$45 million credit facility at substantially lower rates of approximately 3%.
- Reached an agreement to acquire substantially all the assets of Ciscura Holdings Company, Inc. and its subsidiaries, including approximately 1,600 infusion pumps and opened a new Southeast service facility.
- Adjusted Net Income - EPS of \$0.03 matched last year's despite increased investments in information technology and pain management initiatives and the integration of the Ciscura asset acquisition.
- Purchased \$2.6 million of medical equipment in rental service expected to be deployed by the end of the second quarter.

Revenues in the first quarter of 2015 were \$16.7 million, down \$0.5 million, or 3%, from \$17.2 million in the first quarter of 2014. During the period, net revenues from rentals increased 2% while net revenues from product sales decreased 34% over the same period

in 2014. The decrease in product sales was due to an opportunistic product sale of a particular pump at a low gross margin, which resulted in \$0.9 million in additional revenue, in the first quarter of 2014. The prior year's pump sale was partially offset by an increase in rental business.

The Company is focused on net rental revenues less bad debt ("Net Collected Rental Revenues") versus prior year. Net Collected Rental Revenues increased 12% to \$14.2 million versus \$12.7 million in the comparable quarter of 2014. This increase occurred mainly as a direct result of focus on contractual insurance changes and the Company's increased focus on collecting patient billings.

During the quarter, the Company entered into a new five-year senior secured credit agreement comprised of a \$10.0 million asset-based revolver, a \$27.0 million Senior Term A Loan and an \$8.0 million Senior Term B Loan. The new credit facility strengthens the Company's balance sheet and reduces the Company's current interest rate to 3.00% from the previous interest rate of 7.75%.

Also during the quarter, the Company entered into an agreement to acquire substantially all of the assets of Ciscura Holding Company, Inc. and its subsidiaries, estimated to include approximately 1,600 infusion pumps embedded in 106 medical facilities in the southeastern U.S. While the Company has long since operated in this section of the country, it was not previously doing business with these particular infusion clinics. This acquisition will now allow the Company to offer its electronic connectivity solutions and its full portfolio of infusion related products, including InfuConnect paperless and work-free EMR integration, to these newly acquired infusion clinic customers.

The net loss in the first quarter was \$0.4 million, equal to \$0.02 per diluted share, compared to income of \$0.6 million, or \$0.03 per diluted share, in the same prior year period. Adjusted net income, excluding non-recurring items related to the extinguishment of debt, the establishment of the new credit facility and to the closing and integration costs associated with the acquisition of Ciscura, was \$0.7 million, or \$0.03 per diluted share, matching the same prior year amount.

Gross profit for the three months ended March 31, 2015 was \$12.1 million, consistent with the same prior year period. It represented 72.3% of revenues in the current period compared to 70.0% in the prior year.

Eric K. Steen, chief executive officer of InfuSystem, said, "We got off to a good start in the first quarter of 2015. Net revenues for the quarter were solid at \$16.7 million and we are pleased with the 12% increase in Net Collected Rental Revenue which is associated with the decrease in bad debt of 43%, or \$913,000. Gross profit for the quarter increased 224 basis points to 72.3%. Adjusted EBITDA was up 16% to \$3.8 million compared to \$3.3 million in the first quarter of 2014. Adjusted net income increased 16% to \$662,000, or \$0.03 per diluted share. Although the first quarter is historically our slowest quarter of the year, we are pleased with the operational and financial results of the first quarter of 2015 and we believe we are well positioned for solid performance throughout the entire year."

Mr. Steen continued, "During the quarter we were able to opportunistically acquire the assets of a competitor in the Southeast; expand our pump fleet by approximately 1,600 units, but more importantly, allows us to introduce our electronic connectivity solutions to

106 new infusion clinics. We also filed for patent protection on our proprietary advancements and intellectual property in the area of these electronic connectivity solutions. We believe that the novel IT developments that we have created to make our customers more efficient will be valued by other health care organizations and we plan to license these technologies in the future."

Mr. Steen concluded, "Although we have taken a number of one-time charges during this quarter in conjunction with our new credit facility and the execution and integration of the Ciscura acquisition along with our increase in investments related to our information technology and pain management initiatives, we have improved our ability to compete even more effectively for the remainder of 2015 and for the years to come. We are building a strong foundation for future growth."

During the three months ended March 31, 2015, general and administrative ("G&A") expenses were \$6.0 million, an increase of \$1.1 million, compared to \$4.9 million for the same prior year period. The increase in G&A expenses versus the same prior year period was mainly attributable to increases in spending on information technology and pain management initiatives of \$0.4 million; increases in compensation and headcount of \$0.1 million; increases in stock compensation of \$0.2 million and \$0.3 million in expenses associated with the acquisition, transition, and integration of Ciscura.

Other expenses for the three months ended March 31, 2015 were \$2.3 million compared to \$0.8 million for the same period in 2014. This increase was mainly attributable to expenses of \$1.6 million related to the write-off of deferred financing costs, of which \$1.1 million was a noncash charge, as a result of the extinguishment of long-term debt. Selling and marketing expenses remained consistent at \$2.7 million when compared to the first quarter of 2014.

Adjusted EBITDA was \$3.8 million for the first quarter of 2015 compared to \$3.3 million for the same period in 2014. The Company utilizes Adjusted Net Income and Adjusted EBITDA as a means to measure its operating performance. A reconciliation from GAAP operating measures to Adjusted Net Income and Adjusted EBITDA, both non-GAAP measures, can be found in the appendix.

Financial Condition

Net cash used in operations for the three months ended March 31, 2015 was \$1.4 million compared to \$0.6 million for the same prior year period. The decrease in cash is primarily due to the cash flow effects of the change in accounts payable and other accruals, including additional medical equipment purchased on capital leases. The company invested approximately \$2.6 million in medical equipment during the quarter in anticipation of additional rental business in the second quarter.

As of March 31, 2015, the Company maintained cash and cash equivalents of \$3.2 million and \$9.0 million of availability on the Revolver compared to \$0.5 million and \$6.6 million, respectively, at December 31, 2014. "This dramatic increase in liquidity is directly associated with the Company's refinancing with JPMorgan Chase during the quarter," stated Jonathan P. Foster, chief financial officer. "We were able to successfully establish a new \$45 million credit facility that will provide us a higher level of flexibility in managing our business, positions us to benefit from strategic opportunities when they present themselves, and significantly lowers our interest rate from 7.75% to 3.00% currently. The interest expense

savings will pay for the cash charge of \$0.5 million in less than one year."

Guidance

The Company increased its 2015 Guidance to double-digit Net Collected Rental Revenue growth – revenue less bad debt - for fiscal year 2015. Previous 2015 Guidance was high single digit revenue growth. It is important to note that the Company's Form 10-Q for the quarter ended March 31, 2015, includes comments regarding the recent announcement by the Centers for Medicare and Medicaid Services.

Conference Call

The Company will conduct a conference call for investors on Tuesday, May 12, 2015 at 4:30 p.m. Eastern Time to discuss first quarter performance and results. Eric K. Steen, chief executive officer, Jan Skonieczny, chief operating officer, and Jonathan P. Foster, chief financial officer, will discuss the Company's financial performance and answer questions from the financial community. To participate in this call, please dial in toll-free (800) 446-1671 and use the confirmation number 39478070. This press release will be available on most financial websites. Additionally, a web replay will be available on the Company's website for 30 days.

Non-GAAP Measures

This press release contains information prepared in conformity with GAAP as well as non-GAAP information. It is management's intent to provide non-GAAP financial information in order to enhance readers' understanding of its consolidated financial information as prepared in accordance with GAAP. This non-GAAP information should be considered by the reader in addition to, but not instead of, the financial statements prepared in accordance with GAAP. Each non-GAAP financial measure and the corresponding GAAP financial measures are presented so as to not imply that more emphasis should be placed on the non-GAAP measure. The non-GAAP financial information presented may be determined or calculated differently by other companies. Additional information about non-GAAP financial measures and a reconciliation of those measures to the most directly comparable GAAP measures are included later in this release.

About InfuSystem Holdings, Inc.

InfuSystem Holdings, Inc. is a leading provider of infusion pumps and related services to hospitals, oncology practices and other alternate site healthcare providers. Headquartered in Madison Heights, Michigan, the Company delivers local, field-based customer support and also operates Centers of Excellence in Michigan, Kansas, California, Texas and Ontario,

Canada. The Company's stock is traded on the NYSE MKT under the symbol INFU.

Forward-Looking Statements

Certain statements contained in this press release are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act") and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). The words "believe," "may," "will," "estimate," "continue," "anticipate," "intend," "should," "plan," "expect," "strategy," "future," "likely," variations of such words, and other similar expressions, as they relate to the Company, are intended to identify forward-looking statements. However, the absence of these words or similar expressions does not mean that a statement is not forward-looking. In connection with the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995, the Company is identifying certain factors that could cause actual results to differ, perhaps materially, from those indicated by these forward-looking statements. Those factors, risks and uncertainties include, but are not limited to, potential changes in overall healthcare reimbursement, including CMS competitive bidding, sequestration, concentration of customers, increased focus on early detection of cancer, competitive treatments, dependency on Medicare Supplier Number, availability of chemotherapy drugs, global financial conditions, changes and enforcement of state and federal laws, natural forces, competition, dependency on suppliers, risks in acquisitions & joint ventures, U.S. Healthcare Reform, relationships with healthcare professionals and organizations, technological changes related to infusion therapy, dependency on websites and intellectual property, the ability of the Company to successfully integrate acquired businesses, dependency on key personnel, dependency on banking relations and covenants, and other risks associated with our common stock, as well as any litigation to which the Company may be involved in from time to time; and other risk factors as discussed in the Company's annual report on Form 10-K for the year ended December 31, 2014 and in other filings made by the Company from time to time with the Securities and Exchange Commission, including our Form 10-Q for the first quarter of 2015. Our annual report on Form 10-K is available on the SEC's EDGAR website at www.sec.gov, and a copy may also be obtained by contacting the Company. All forward-looking statements made in this press release speak only as of the date of this report. We do not intend, and do not undertake any obligation, to update any forward-looking statements to reflect future events or circumstances after the date of such statements.
