Silvercrest Asset Management Group Inc. Reports Q2 2019 Results

NEW YORK, Aug. 1, 2019 /PRNewswire/ -- Silvercrest Asset Management Group Inc. (NASDAQ: SAMG) (the "Company" or "Silvercrest") today reported the results of its operations for the quarter ended June 30, 2019.

Business Update

Silvercrest finished the second quarter of 2019 with one of its strongest organic growth quarters over the past few years, with \$259 million in new client accounts. Our high net worth wealth management business led the way in the second quarter, a demonstration of the firm's diversified growth opportunities. We will continue investment in our high net worth portfolio management teams to maintain the organic growth of this business. Furthermore, additional organic capital inflows from existing clients diminished the effect of normal second quarter tax-related outflows. Strong capital markets since the fourth quarter of 2018 market downturn also have helped put the firm on its growth trajectory, with discretionary assets under management at \$16 billion and total assets under management at \$21.7 billion, up approximately \$1 billion during the quarter.

Our strong growth in assets under management during the second quarter does not include our previously announced acquisition of certain assets of Cortina Asset Management, LLC. We had previously announced that we expected that transaction to close during the third quarter of this year. We, in fact, closed on July 1, and we are thrilled to welcome our new Milwaukee partners and colleagues to the firm. Their high-quality growth equity strategies bring approximately \$1.7 billion of assets under management to Silvercrest at an annual revenue run rate of approximately \$13 million, starting with the third quarter. We expect the transaction to contribute meaningful accretion to the firm's cash flow and earnings per share. Furthermore, we are excited to support the talent behind our new growth equity strategies with new opportunities in the institutional marketplace. Our marketing teams are fully integrated and are already working to continue building that business. We have a robust institutional asset management pipeline and have substantial institutional interest across Silvercrest's equity strategies, some of which have only recently been introduced to the marketplace.

As we mentioned last quarter, the remainder of 2019 and 2020 will be important for growth in the firm's Outsourced Chief Investment Officer (OCIO) initiative. I am pleased that the marketing pipeline for that business looks robust. Given our activity level, we expect near-term positive results.

The current M&A environment for wealth management firms remains both active and expensive. Silvercrest is involved in multiple conversations at any given time. We believe our brand, culture, capabilities and technological innovation make Silvercrest a premier partner for the right businesses. Regardless of the environment, Silvercrest will seek to create value on behalf of shareholders where opportunity resides, and we will continue to foster initiatives to organically grow the firm.

On July 29, 2019, the Company's Board of Directors declared a quarterly dividend of \$0.15 per share of Class A common stock. The dividend will be paid on or about September 20, 2019 to shareholders of record as of the close of business on September 13, 2019.

³ We have computed average AUM by averaging AUM at the beginning of the applicable period and AUM at the end of the applicable period.

AUM at \$21.7 billion

Silvercrest's discretionary assets under management decreased by \$0.2 billion, or 1.2%, to \$16.0 billion at June 30, 2019 from \$16.2 billion at June 30, 2018. The decrease was attributable to net client outflows of \$0.5 billion partially offset by market appreciation of \$0.3 billion. Silvercrest's total AUM decreased by \$0.1 billion, or 0.5%, to \$21.7 billion at June 30, 2019 from \$21.8 billion at June 30, 2018. The decrease was attributable to net client outflows of \$1.3 billion partially offset by market appreciation of \$1.2 billion.

Silvercrest's discretionary assets under management increased by \$0.7 billion, or 4.6%, to \$16.0 billion at June 30, 2019 from \$15.3 billion at March 31, 2019. The increase was attributable to net client inflows of \$0.2 billion and market appreciation of \$0.5 billion. Silvercrest's total AUM increased by \$0.9 billion, or 4.3%, to \$21.7 billion at June 30, 2019 from \$20.8 billion at March 31, 2019. The increase was attributable to net client inflows of \$0.1 billion and market appreciation of \$0.8 billion.

Second Quarter 2019 vs. Second Quarter 2018

Revenue decreased by \$0.7 million, or 2.8%, to \$23.9 million for the three months ended June 30, 2019, from \$24.6 million for the three months ended June 30, 2018. This decrease was driven by net client outflows in discretionary assets under management as well as by market fluctuations over the past year, partially offset by market appreciation during the three months ended June 30, 2019.

Total expenses increased by \$0.4 million, or 1.8%, to \$19.5 million for the three months ended June 30, 2019 from \$19.1 million for the three months ended June 30, 2018. Compensation and benefits expense decreased by \$0.4 million, or 3.0%, to \$14.0 million for the three months ended June 30, 2019 from \$14.4 million for the three months ended June 30, 2018. The decrease was primarily attributable to a decrease in the accrual for bonuses of \$0.9 million, partially offset by an increase in salaries and benefits expense of \$0.5 million primarily as a result of merit-based increases and newly hired staff. General and administrative expenses increased by \$0.8 million, or 16.5%, to \$5.5 million for the three months ended June 30, 2019 from \$4.7 million for the three months ended June 30, 2018. The increase was primarily attributable to an increase in professional fees of \$0.2 million due to an increase in acquisition-related legal fees, an increase in occupancy and related expenses of \$0.4 million and an increase in moving and storage costs of \$0.2 million related to the renovation of our office space in New York City.

Consolidated net income was \$3.4 million or 14.0% of revenue for the three months ended June 30, 2019 as compared to \$4.2 million or 17.1% of revenue for the same period in the prior year. Adjusted EBITDA¹ was \$6.6 million or 27.5% of revenue for the three months ended June 30, 2019 as compared to \$7.1 million or 28.9% of revenue for the same period in the prior year.

Six Months Ended June 30, 2019 vs. Six Months Ended June 30, 2018

Revenue decreased by \$2.4 million, or 5.0%, to \$46.5 million for the six months ended June 30, 2019, from \$48.9 million for the six months ended June 30, 2018. This decrease was driven by net client outflows in discretionary assets under management as well as by market fluctuations over the past year, partially offset by market appreciation during the six

months ended June 30, 2019.

Total expenses decreased by \$0.1 million, or 0.3%, to \$38.0 million for the six months ended June 30, 2019 from \$38.1 million for the six months ended June 30, 2018. Compensation and benefits expense decreased by \$1.4 million, or 4.8%, to \$27.4 million for the six months ended June 30, 2019 from \$28.8 million for the six months ended June 30, 2018. The decrease was primarily attributable to a decrease in the accrual for bonuses of \$2.4 million, partially offset by an increase in salaries and benefits expense of \$1.0 million primarily as a result of merit-based increases and newly hired staff. General and administrative expenses increased by \$1.3 million, or 13.3%, to \$10.7 million for the six months ended June 30, 2019 from \$9.4 million for the six months ended June 30, 2018. The increase was primarily attributable to an increase in portfolio and systems expenses of \$0.4 million due to an increase in soft dollar-related research costs, an increase in occupancy and related expenses of \$0.5 million, an increase in professional fees of \$0.2 million due to an increase in acquisition-related legal fees and an increase in moving and storage costs of \$0.2 million related to the renovation of our office space in New York City.

Non-GAAP Financial Measures

To provide investors with additional insight, promote transparency and allow for a more comprehensive understanding of the information used by management in its financial and operational decision-making, we supplement our consolidated financial statements presented on a basis consistent with GAAP with Adjusted EBITDA, Adjusted EBITDA margin, Adjusted Net Income, and Adjusted Earnings Per Share which are non-GAAP financial measures of earnings. These adjustments, and the non-GAAP financial measures that are derived from them, provide supplemental information to analyze our operations between periods and over time. Investors should consider our non-GAAP financial measures in addition to, and not as a substitute for, financial measures prepared in accordance with GAAP.

- EBITDA represents net income before provision for income taxes, interest income, interest expense, depreciation and amortization.
- We define Adjusted EBITDA as EBITDA without giving effect to the Delaware franchise tax, professional fees associated with acquisitions or financing transactions, gains on extinguishment of debt or other obligations related to acquisitions, impairment charges and losses on disposals or abandonment of assets and leaseholds, client reimbursements and fund redemption costs, severance and other similar expenses, but including partner incentive allocations, prior to our initial public offering, as an expense. We feel that it is important to management and investors to supplement our consolidated financial statements presented on a GAAP basis with Adjusted EBITDA, a non-GAAP financial measure of earnings, as this measure provides a perspective of recurring earnings of the Company, taking into account earnings attributable to both Class A and Class B shareholders.
- Adjusted EBITDA Margin is calculated by dividing Adjusted EBITDA by total revenue. We feel that it is important to management and investors to supplement our consolidated financial statements presented on a GAAP basis with Adjusted EBITDA Margin, a non-GAAP financial measure of earnings, as this measure provides a perspective of recurring profitability of the Company, taking into account profitability attributable to both Class A and Class B shareholders.
- Adjusted Net Income represents recurring net income without giving effect to professional fees associated with acquisitions or financing transactions, losses on forgiveness of notes receivable from our principals, gains on extinguishment of debt or other obligations related to acquisitions, impairment charges and losses on disposals or abandonment of assets and leaseholds, client reimbursements and fund redemption costs, severance and other similar expenses, but including partner incentive allocations, prior to our initial public offering, as an expense. Furthermore, Adjusted Net Income includes income tax expense assuming a blended corporate rate of 26%. We feel that it is important to management and investors to supplement our consolidated financial statements presented on a GAAP basis with Adjusted Net Income, a non-GAAP financial measure of earnings, as this measure provides a

perspective of recurring income of the Company, taking into account income attributable to both Class A and Class B shareholders.

- Adjusted Earnings Per Share represents Adjusted Net Income divided by the actual Class A and Class B shares outstanding as of the end of the reporting period for basic Adjusted Earnings Per Share, and to the extent dilutive, we add unvested restricted stock units and non-qualified stock options to the total shares outstanding to compute diluted Adjusted Earnings Per Share. As a result of our structure, which includes a non-controlling interest, we feel that it is important to management and investors to supplement our consolidated financial statements presented on a GAAP basis with Adjusted Earnings Per Share, a non-GAAP financial measure of earnings, as this measure provides a perspective of recurring earnings per share of the Company as a whole as opposed to being limited to our Class A common stock.
