MYnd Analytics to be Featured on Varney & Co.

ALISO VIEJO, Calif., Nov. 12, 2015 (GLOBE NEWSWIRE) -- **MYnd Analytics, Inc.** (OTCQB:CNSO)

MYnd Analytics CEO, George Carpenter, is scheduled to appear live in-studio on the Friday, November 13 episode of "Varney & Co." The segment focuses on Kelly Thrasher, a decorated, high-achieving Veteran who struggled with PTSD following four tours of duty in Kuwait, Iraq and Afghanistan.

Kelly tried talk therapy but was skeptical about trial and error medications. When his wife gave him an ultimatum, he was ready to do whatever it took. Kelly will discuss how the PEER Report helped his doctor quickly identify the most effective treatments, and George will explain why soldiers must go outside the military to find doctors who use PEER.

This "Varney & Co." segment is expected to air nationally on Fox Business Network at 10:40 a.m. Eastern Time.

About MYnd Analytics Inc.

MyndAnalytics (www.myndanalytics.com) provides a unique set of reference data and analytic tools for clinicians and researchers in psychiatry. While treatment for mental disorders has doubled in the last 20 years, it is estimated that 17 million Americans have failed two or more medication therapies for their mental disorders. The Company's Psychiatric EEG Evaluation Registry, or PEER Online, is a new registry and reporting platform that allows medical professionals to exchange treatment outcome data for patients referenced to objective neurophysiology data obtained through a standard electroencephalogram (EEG). Based on the company's original physician-developed database, there are now more than 38,000 outcomes for over 10,000 unique patients in the PEER registry. The objective of PEER Online is to avoid trial and error pharmacotherapy, which is the dominant approach for treatment resistant patients.
