MYnd Analytics' PEER Report Featured on CBS New York

MISSION VIEJO, Calif., Nov. 05, 2018 (GLOBE NEWSWIRE) -- **MYnd Analytics, Inc. (NASDAQ: MYND)**, a market leader in improving the delivery of mental health through the combination of telemedicine and data analytics/augmented intelligence, today announced that the Company's Psychiatric EEG Evaluation Registry ("PEER") was featured on CBS New York by medical correspondent Dr. Max Gomez.

A link to the video and related article are available at:https://newyork.cbslocal.com/2018/11/01/mynd-analytics-test-for-depression/

Commenting on the news story, George Carpenter, CEO of MYnd stated, "We appreciate Jan Petty for coming forward with an inspiring story that gives hope to others suffering with depression, and we're grateful to the thousands of people like Jan who have contributed their own outcomes to the science of reducing trial and error in mental health."

About MYnd Analytics

MYnd Analytics, Inc. (www.myndanalytics.com) is a predictive analytics company that has developed a decision support tool to help physicians reduce trial and error treatment in mental health and provide more personalized care to patients. The Company's Psychiatric EEG Evaluation Registry, or PEER Online, is a registry and reporting platform that allows medical professionals to exchange treatment outcome data for patients referenced to objective neurophysiology data obtained through a standard electroencephalogram (EEG). Based on the Company's original physician-developed database, there are now more than 40,000 outcomes for over 11,000 unique patients in the PEER registry. The goal of PEER Online is to provide objective, personalized data to assist physicians in the selection of appropriate medications. To read more about the benefits of this patented technology for patients, physicians and payers, please visit: www.myndanalytics.com.

MYnd also operates its wholly owned subsidiary Arcadian Telepsychiatry Services, LLC which manages a suite of services including telepsychiatry, teletherapy, digital patient screening, curbside consultation, on-demand services, and scheduled encounters for all age groups. Arcadian utilizes patient engagement and re-engagement strategies so that care is effectively completed, helping to comfortably move inpatient care to outpatient, assisting patients in readjusting to their life routine, as well as reducing wait times for mental health treatment. Arcadian's customer base includes major health plans, health systems, and community-based organizations.

Forward-looking Statements

Except for the historical information contained herein, the matters discussed are forward-looking statements made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, as amended. These forward-looking statements involve risks and uncertainties, such as statements regarding market developments, new products and growth strategies, the ability of MYnd's products to successfully produce objective data and improve efficiency in the treatment of depression and other mental health and psychiatric illnesses, as well as those risks and uncertainties set forth in MYnd's filings with the Securities and Exchange Commission. These risks and uncertainties could cause actual results to differ materially from any forward-looking statements made herein.
