About Clean Coal Technologies, Inc.

Clean Coal Technologies, Inc., is a cleaner-energy technology company headquartered in New York City, NY, that holds a patented and patent pending process technologies and other intellectual property, which has been developed to address environmental and other priorities in the U.S. and global coal industry. The process technology is designed to convert raw coal into a cleaner and more efficient burning fuel. Coal that is treated using CCTI's technology processes Pristine(TM), Pristine-M(TM) and Pristine SA(TM) have as a result of research and testing shown to be more efficient, less polluting, more cost-effective, and provide more heat than untreated coal. For additional information about CCTI, please visit our website at www.cleancoaltechnologiesinc.com.

Forward Looking Statements

This release may include forward-looking statements related to CCTI's plans, beliefs and goals, which involve certain risks and uncertainties that could cause actual results to differ materially from those in the forward-looking statements. Such statements include, but are not limited to, statements about CCTI's plans, objectives, expectations and intentions with respect to future operations, its products, its ability to secure financing for its operations, the impact on the industry and other statements identified by words such as "will," "potential,"

"could," "can," "believe," "intends," "continue," "plans," "expects," "anticipates," "estimates," "may," other words of similar meaning or the use of future dates. Additional details about CCTI's business and its operations that could affect CCTI's actual results are described in CCTI's filings with the Securities and Exchange Commission, including the "Risk Factors" that are part of its most recent annual report on Form 10-K for the year ended December 31, 2013 and in each of its subsequently filed periodic reports. All forward-looking statements in this release speak only as of the date of this news release. CCTI undertakes no obligation to update or revise any forward-looking statement, whether as a result of new information, future events or otherwise.
