## Resonant to Participate in Ascendant's Quarterly Management Discussion Series on October 7 at 1:00 p.m. EDT

**Please note that due to the departure of the Analyst from Ascendant, Ascendant has cancelled this event.**

SANTA BARBARA, Calif.-- Resonant Inc. (Nasdaq: RESN), a late-stage development company that is creating innovative filter designs for radio frequency front-ends, or RFFE's, for the mobile device industry, today announced that Chief Executive Officer Terry Lingren will participate in Ascendant's Quarterly Management Discussion Series teleconference on Wednesday, October 7 at 1:00 p.m. EDT/10:00 a.m. PDT.

Interested parties may access the call by dialing +1-719-457-6209 and entering passcode 216781. A replay webcast link will be available on the investor relations section of [www.resonant.com](http://www.resonant.com) shortly after the call concludes.

### **About Resonant Inc.**

Resonant is a late-stage development company creating innovative filter designs for the RF front-end for the mobile device industry. The RFFE is the circuitry in a mobile device responsible for analog signal processing and is located between the device's antenna and its digital baseband. Filters are a critical component of the RFFE that selects the desired radio frequency signals and rejects unwanted signals.

Using a patented, fundamentally new technology called Infinite Synthesized Networks™ (ISN), Resonant has developed a new method of designing RF filters that can displace conventional filters by providing significant cost and size reductions, fewer components and improved performance. ISN can improve Surface Acoustic Wave (SAW) filters to work in difficult, Bulk Acoustic Wave (BAW) bands with performance that is competitive with best in class products that exist on the market today. These capabilities will also allow Resonant to create filter designs that tune to multiple bands. Resonant plans to market these tunable designs, which would replace several existing filters while significantly reducing the overall size and cost of the RFFE. For more information, please visit [www.resonant.com](http://www.resonant.com).
