## **InfuSystem Holdings, Inc. (NYSE Amex:INFU) Set to Join Russell Microcap Index**

MADISON HEIGHTS, Mich., June 20, 2011 (GLOBE NEWSWIRE) -- InfuSystem Holdings, Inc. (NYSE Amex:INFU) today announced that it will join the Russell Microcap® Index when Russell Investments reconstitutes its family of U.S. indexes on June 24, 2011, according to a preliminary list of additions posted June 17 on [www.russell.com/indexes](http://www.russell.com/indexes).

Membership in the Russell Microcap Index, which remains in place for one year, means automatic inclusion in the appropriate growth and value style indexes. Russell determines membership for its equity indexes primarily by objective, market-capitalization rankings and style attributes.

"We believe this announcement is another significant milestone event for our company and are pleased to be included among the well respected companies in this index as we continue the execution of our strategic and operational initiatives," commented Sean McDevitt, Chairman and CEO. "The inclusion of InfuSystem Holdings in the Russell Microcap Index will expose our company and its stock to a wider audience of institutional investors which we believe will ultimately benefit our long-term shareholders."

Russell indexes are widely used by investment managers and institutional investors for index funds and as benchmarks for both passive and active investment strategies. An industry-leading \$3.9 trillion in institutional assets currently are benchmarked to them.

Annual reconstitution of Russell Indexes captures the 4,000 largest U.S. stocks, as of the end of May, ranking them by total market capitalization to create the Russell 3000® Index and Russell Microcap. These investment tools originated from Russell's multi-manager investment business in the early 1980s when the company saw the need for a more objective, market-driven set of benchmarks in order to evaluate outside investment managers.
