

## COMPANY OVERVIEW

Taronis Technologies, Inc. (TRNX) owns a patented plasma arc technology that enable two end use applications for fuel generation and water decontamination. The Company's fuel technology enables a wide use of hydrocarbon based waste streams to be readily converted to fossil fuel substitutes. The Company is developing a wide range of end market uses for these fuels, including replacement products for propane, compressed natural gas and liquid natural gas. The Company currently markets a proprietary metal cutting fuel that is highly competitive with acetylene.

The Company distributes its proprietary metal cutting fuel through Independent Distributors in the U.S and through its wholly owned distributors: ESSI, Green Arc Supply, Paris Oxygen, Latex Welding Supplies, Tyler Welders Supply, United Welding Supplies, Trico Welding Supply and Complete Welding of San Diego. The Company operates 17 locations across California, Texas, Louisiana, and Florida.

The Company also owns a patented technology for the decontamination of waste water. This technology is proven to sterilize water, eradicating all pathogens. This technology also eliminates pharmaceutical contaminants such as antibiotics, hormones and other soluble drugs suspended in the contaminated water. Lastly, this process is capable of reducing or eliminating other contaminants, such as harmful metals, as well as nitrogen, phosphorus, and potassium levels that trigger toxic algae blooms. This technology has prospective commercial applications in the agricultural, pharmaceutical, and municipal waste markets.
