

COMPANY OVERVIEW

Founded in 2007, Tampa-based **MagneGas Corporation** is the producer of MagneGas2®, a natural gas alternative and metal cutting fuel made from liquid waste. The Company's patented Submerged Plasma Arc Gasification™ process gasifies liquid waste, creating a clean burning fuel that is essentially interchangeable with natural gas, but with lower greenhouse gas emissions. MagneGas2® can be used for metal cutting, cooking, heating or powering biofuel automobiles. MagneGas Corporation is helping to remove critical threats to our environment, power our lives and provide investors a "green" investment opportunity.

MagneGas Corporation owns and licenses the intellectual property for the MagneGas Technology for the territories of North, South and Central America.
