InfuSystem Holdings, Inc. Reports Fourth Quarter and Full Year 2018 Financial Results

“Generates \$11.4 million in Operating Cash Flow in 2018, an increase of 48% vs. prior year.”

MADISON HEIGHTS, MICHIGAN, March 07, 2019 (GLOBE NEWSWIRE) -- InfuSystem Holdings, Inc. (NYSE American LLC: INFU) (“InfuSystem” or the “Company”), a leading national provider of infusion pumps and related services for the healthcare industry in the United States and Canada, today reported financial results for the fourth quarter and full year ended December 31, 2018.

Fourth Quarter and Full Year Highlights:

- **Cash flows provided by operating activities were \$11.4 million for the year ended December 31, 2018, up \$3.7 million or 47.6% from the same period of 2017.**
- **2018 stock repurchases totaled \$10.4 million, approximately 14.6% of the outstanding shares at December 31, 2017.**
- **Net revenues for the quarter and year ended December 31, 2018 were \$17.6 million and \$67.1 million, respectively, a 7.0% and 5.5% decrease, respectively, from the same prior year periods. Prior to the effect of adopting ASC 606, this would have represented a net increase of \$0.2 million or 1.0% increase and \$2.4 million or 3.3% increase, respectively, from the same prior year periods.**
- **Net loss for the quarter and year ended December 31, 2018 was \$0.3 million and \$1.1 million, respectively, a 98.5% and 94.7% decrease, respectively, from the net loss for the same prior year periods.**
- **Adjusted earnings before interest, taxes, depreciation, and amortization (“Adjusted EBITDA”) (a non-GAAP financial measure) for the quarter and year ended December 31, 2018 was \$3.7 million and \$13.8 million, respectively, an increase of 12.5% and 17.7%, respectively, from the same prior year periods and represented 21.3% and 20.5% of net revenues, respectively.**

Commenting on the fourth quarter and full year, Richard Dilorio, chief executive officer of InfuSystem, said, “I am pleased to announce that our improved efficiencies and strategic initiatives continue to favorably impact our financials. We will continue working to improve our operations in 2019, with emphasis on managing our pump utilization, improving logistics, and managing our expenses. This, along with an initiative to improve our revenue cycle management practices, should continue the positive trend in cash

generation into 2019.”

Mr. Dilorio continued, “The InFuSystem team will continue the company’s agenda of superior patient care and customer service into the new fiscal year. This, we believe, will help to drive significant market share gains in our core oncology business and customer adoption of our new InFuSystem Mobile patient-care application.”

Implementation of ASC 606:

Effective January 1, 2018, InFuSystem adopted, on a modified retrospective approach, Accounting Standards Codification Topic 606: *Revenue from Contracts with Customers* (“ASC 606”). The effect of this change is to remove from reported revenue, in this and future periods, the amount the Company recorded as a provision for doubtful accounts during such period. The adoption on a modified retrospective approach means that the Company will not restate its financials for the periods prior to the adoption of ASC 606.

The adoption of ASC 606 resulted in a reclassification of \$1.5 million and \$6.3 million for the three months and full year ended December 31, 2018, respectively. These amounts, which previously would have been reported as provision for doubtful accounts on the Company’s income statement, are instead reflected as reductions in reported net revenues - rentals.

Results for the Quarter and Year Ended December 31, 2018

Gregory Schulte, chief financial officer, commented, “Our significant increase in operating cash flows in 2018 was primarily due to:

- Profitability, after adjustments to reconcile net loss to net cash provided by operating activities excluding the change in the provision for doubtful accounts, improved by \$2.8 million, primarily attributable to net revenue growth and decreased selling, general and administrative costs; and,
- Improved working capital net inflows of \$0.9 million, primarily due to increased accounts receivable collections, including the change in the provision for doubtful accounts, and vendor management impact on accounts payable and other liabilities, partially offset by higher inventory levels.

These improved cash flows, plus net borrowings from our amended bank credit facility, allowed us to repurchase \$10.4 million of our common stock during 2018. Also, in the second half of 2018, we used our improved cash flows from operations and equipment line borrowings to ramp up capital expenditure purchases of pumps to meet the demand of favorable oncology market growth in the foreseeable future and to make other necessary additions to our fleet.”

Conference Call

The Company will conduct a conference call for investors on Thursday, March 7, 2019 at 9:00 a.m. Eastern Time to discuss fourth quarter and full year 2018 results. The conference call may also include a discussion of Company developments, forward-looking statements and other material information about business and financial matters. To participate in this call, please dial in toll-free (833) 366-1127 or (412) 902-6773. Additionally, a Web replay will be available on the Company’s website for 90 days or by

calling (877) 344-7529 or (412) 317-0088, confirmation code 10129264, through March 14, 2019.

Condensed Consolidated Financial Statements

Certain balances in the condensed consolidated financial statements for the quarter and year ended December 31, 2017 have been reclassified to be consistent with the quarter and year ended December 31, 2018 presentation in accordance with GAAP.

Non-GAAP Measures

This press release contains information prepared in conformity with GAAP as well as non-GAAP financial information. The Company believes that the non-GAAP financial measures presented in this press release provide useful information to the Company's management, investors, and other interested parties about the Company's operating performance because they allow them to understand and compare the Company's operating results during the current periods to the prior year periods in a more consistent manner. This non-GAAP information should be considered by the reader in addition to, but not instead of, the financial statements prepared in accordance with GAAP, and similarly titled non-GAAP measures may be calculated differently by other companies. The Company calculates those non-GAAP measures by adjusting for non-recurring items that are not part of the normal course of business and that the Company's management does not believe will have similar comparable year-over-year items. A reconciliation of those measures to the most directly comparable GAAP measures is provided below.

About InfuSystem Holdings, Inc.

InfuSystem Holdings, Inc. is a leading provider of infusion pumps and related services to hospitals, oncology practices and other alternate site healthcare providers. Headquartered in Madison Heights, Michigan, the Company delivers local, field-based customer support and also operates Centers of Excellence in Michigan, Kansas, California, Massachusetts and Ontario, Canada. The Company's stock is traded on the NYSE American LLC under the symbol INFU.

Forward-Looking Statements

The financial results in this press release reflect preliminary results, which are not final until the Company's Form 10-K for the year ended December 31, 2018 is filed. In addition, certain statements contained in this press release are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, such as statements relating to future actions, business plans, objectives and prospects, future operating or financial performance. The words "believe," "may," "will," "estimate," "continue," "anticipate," "intend," "should," "plan," "expect," "strategy," "future," "likely," variations of such words, and other similar expressions, as they relate to the Company, are intended to identify forward-looking statements. Forward-looking statements are subject to factors, risks and uncertainties that could cause actual results to differ materially, including, but not limited to, our dependence on estimates of collectible revenue, potential litigation, changes in third-party reimbursement processes, changes in law and other risk factors disclosed in the Company's most recent annual report on Form 10-K and, to

the extent applicable, quarterly reports on Form 10-Q. All forward-looking statements made in this press release speak only as of the date hereof. We do not undertake any obligation to update any forward-looking statements to reflect future events or circumstances, except as required by law.
