## Gaia Reports First Quarter 2024 Results

BOULDER, Colo., May 06, 2024 (GLOBE NEWSWIRE) -- **Gaia, Inc. (NASDAQ: GAIA)**, a conscious media and community company, reported financial results for the first quarter ended March 31, 2024.

### Highlights:

- Operating cash flows for the first quarter improved by \$5.2 million from the year-ago quarter
- Fourth consecutive quarter of positive free cash flow
- Highest single quarter of membership growth since Q1 2021

“In the first quarter we experienced a 10% decrease in customer acquisition costs,” said Jirka Rysavy, Gaia’s Chairman. “We continued to see our member growth rate increase, as we doubled our net member addition to 33,000 during the first quarter up from 16,000 in the fourth quarter, finishing with 839,000 members.”

Gaia CEO James Colquhoun commented: “As we closed the quarter, we continued our trend of executing on cash flow positive growth with improvements in marketing efficiency. We also re-branded our premium membership tier from Events+ to Gaia+ and achieved the highest one-month increase in premium members since the launch of the premium tier in October 2019. Additionally, due to an increased focus on direct-to-paid campaigns, annual memberships, and the new Gaia+ tier, we increased deferred revenue on the balance sheet by \$2.0 million during the quarter.”

Gaia CFO Ned Preston commented: “During the first quarter, revenues grew by \$2.1 million or 11% year-over-year to \$21.7 million. Operating cash flows for the first quarter finished at \$5.9 million, representing a \$5.2 million improvement from the year ago quarter and continues the momentum we saw closing 2023 with a full-year increase of \$4.2 million. Free cash flow for the quarter was \$1.0 million, a \$1.6 million improvement from Q1 2023 and comes after the company generated \$8.4 million in full-year free cash flow improvement during 2023.”

### **Non-GAAP Measures**

In addition to disclosing financial results calculated in accordance with United States generally accepted accounting principles (GAAP) in the United States of America, the financial information included in this release contains non-GAAP financial measures, including Free Cash Flow. These non-GAAP measures should not be considered a substitute for, or superior to, financial measures and results calculated in accordance with GAAP, including net income, and reconciliations to GAAP financial statements should be carefully evaluated. Free Cash Flow represents net cash provided by operating activities, adjusted for interest payments, and less capital expenditures. We believe Free Cash Flow is also useful as one of the bases for comparing the Gaia's performance with its competitors. Although Free Cash Flow and similar measures are frequently used as measures of cash flows generated from operations by other companies, Gaia's calculation of Free Cash Flow might not necessarily be comparable to such other similarly titled captions of other companies. We believe that both management and investors benefit from referring to these non-GAAP financial measures in assessing our performance and when planning, forecasting and analyzing future periods.
