Black Diamond Reports Record First Quarter 2012 Results

Sales Up 19% to \$46.4 Million Drives Adjusted Net Income Before Non-Cash Items of \$0.23 Per Share

SALT LAKE CITY, May 7, 2012 (GLOBE NEWSWIRE) -- Black Diamond, Inc. (Nasdaq:BDE) (the "Company" or "Black Diamond"), a leading global provider of outdoor recreation equipment and active lifestyle products, reported financial results for the first quarter ended March 31, 2012.

First Quarter 2012 Financial Highlights vs. Same Quarter a Year-Ago:

- Sales up 19% to \$46.4 million;
- Gross margin improved 150 basis points to 40.1%;
- Adjusted net income before non-cash items increased 33% to \$5.9 million or \$0.23 per diluted share, compared to \$4.4 million or \$0.20 per diluted share; and
- Adjusted EBITDA increased 39% to \$6.3 million.

First Quarter 2012 Financial Results

Total sales in the first quarter of 2012 increased 19% to \$46.4 million, compared to \$39.1 million in the first quarter of 2011. The growth in sales was attributable to a number of innovative products as well as consistent execution in the sale and marketing of existing products.

Gross margin in the first quarter of 2012 increased to 40.1%, compared to 38.6% in the year-ago quarter. The 150 basis point increase in gross margin was due to a favorable shift in mix toward higher margin products and in part to better operating leverage in the business.

Net income in the first quarter of 2012 was \$2.6 million or \$0.10 per diluted share, compared to net income of \$1.2 million or \$0.05 per diluted share in the year-ago quarter. Net income in the first quarter of 2012 included \$3.2 million of non-cash items and \$0.1 million in transaction-related costs, compared to \$2.5 million of non-cash items and \$0.8 million in restructuring charges in the year-ago quarter. Excluding these items, adjusted net income before non-cash items in the first quarter of 2012 increased 33% to \$5.9 million or \$0.23 per diluted share, compared to \$4.4 million or \$0.20 per diluted share in the first quarter of 2011.

Adjusted EBITDA (earnings before interest, taxes, other income, depreciation, amortization, non-cash equity compensation, transaction costs and restructuring charges) in the first

quarter of 2012 increased 39% to \$6.3 million, compared to \$4.6 million in the year-ago quarter. Adjusted EBITDA in the first quarter of 2012 excluded \$0.4 million of non-cash equity compensation.

At March 31, 2012, cash and cash equivalents totaled \$41.6 million, compared to \$2.4 million at December 31, 2011. On February 22, 2012, the Company closed a public offering for 8.9 million shares of its common stock, realizing net proceeds of \$63.4 million before expenses. Total long-term debt, including the current portion of long-term debt, was \$15.9 million at March 31, 2012. A portion of the proceeds from the Company's public offering were used to pay off the outstanding balance on its revolving credit facility with Zions Bank, leaving \$35.0 million of available capacity less outstanding letters of credit.

Management Commentary

"The solid momentum we built throughout 2011 clearly continued into the first quarter of 2012," said Peter Metcalf, President and CEO of Black Diamond. "In fact, we grew across nearly every primary category, driving double-digit sales growth for our Black Diamond Equipment and Gregory brands. This was accomplished despite soft big ticket ski product and glove and mitten sales, which we believe demonstrates the resilience and multi-season balance of our product line.

"For the remainder of 2012, we expect to continue to strategically invest in Black Diamond's operational platform to ultimately support an anticipated much larger and more mature organization. Among other initiatives, we believe that these investments will prepare us for our expected fall 2013 apparel launch, which remains well on track. The SKUs for the collection have been established and we've already initiated work on our spring and fall 2014 designs.

"We also remain committed to our acquisition strategy and are enthusiastic about our growing pipeline of opportunities. Last but not least, we remain confident in our ability to enhance shareholder value further by continuing to build upon the world's most respected brands in the outdoor equipment and lifestyle industry, while seeking to decrease our environmental footprint and increasing our level of leadership on the issues of great importance to our community of outdoor sports enthusiasts."

Net Operating Loss (NOL)

The Company estimates that it has available net operating loss ("NOL") carryforwards for U.S. federal income tax purposes of approximately \$217.1 million. The Company's common stock is subject to a Rights Agreement dated February 7, 2008, intended to assist in limiting the number of 5% or more owners and thus reduce the risk of a possible "change of ownership" under Section 382 of the Code. Any such "change of ownership" under these rules would limit or eliminate the ability of the Company to use its existing NOLs for federal income tax purposes. There is no guaranty, however, that the Rights Agreement will achieve the objective of preserving the value of the NOLs.

Use of Non-GAAP Measures

The Company reports its financial results in accordance with U.S. generally accepted accounting principles ("GAAP"). This press release contains the non-GAAP measures: (i) net income before non-cash items and related earnings per diluted share, and adjusted net income before non-cash items and related earnings per diluted share, and (ii) earnings before interest, taxes, other income, depreciation and amortization ("EBITDA") and adjusted

EBITDA. The Company also believes that presentation of certain non-GAAP measures, i.e.: (i) net income before non-cash items and related earnings per diluted share, and adjusted net income before non-cash items and related earnings per diluted share, and (ii) EBITDA and adjusted EBITDA, provide useful information for the understanding of its ongoing operations and enables investors to focus on period-over-period operating performance, and thereby enhances the user's overall understanding of the Company's current financial performance relative to past performance and provides, to the nearest GAAP measures, a better baseline for modeling future earnings expectations. Non-GAAP measures are reconciled to comparable GAAP financial measures in the financial tables within this press release. The Company cautions that non-GAAP measures should be considered in addition to, but not as a substitute for, the Company's reported GAAP results. Additionally, the Company notes that there can be no assurance that the above referenced non-GAAP financial measures are comparable to similarly titled financial measures used by other publicly traded companies.
