# Consol Vendor Management System to be Exhibited at 7th Annual VMS Professionals Conference

NEW YORK--(BUSINESS WIRE)-- ProcureStaff Technologies, developer of the Consol Vendor Management System (VMS) announced today it will be exhibiting at the Seventh Annual VMS Conference, June 2 -3, 2011, hosted by McDonald's Corporation at Hamburger University, Oak Brook, IL.

Enrique Cruzalegui, Vice President, Business Development and Paul Ritter, Senior Solutions Architect will be on hand to discuss how companies can conquer services procurement spend management through Consol's Performance Analytics tool, robust data warehouse and industry leading Business Intelligence (BI) data and analytics experts. "Many companies turn to ProcureStaff Technologies seeking the benefits of Consol because they realize that real value is derived through full service BI," said Enrique Cruzalegui, Vice President Business Development & Product Strategy. Cruzalegui also maintained that "Unlike many of the competitors in the space, ProcureStaff Technologies offers not only state-of-the-art reporting technology and benchmarking, but also unmatched data normalization and analytics services that drive strategic business decisions."

"We're committed to evolving Consol's unique capabilities by eclipsing the traditional VMS with a unified proprietary enterprise grade platform that enables transactional procurement, performance reporting and collaboration for managing all services spend." said Allen Rittscher, ProcureStaff Technologies President. "Our presence at conferences such as this provides a professional venue for sharing ideas and further advancing Consol's ability to provide workflow optimization and visibility," Rittscher continued.

ABOUT VMS PROFESSIONALS

VMS Professionals is a national association comprised of end user companies networking to discuss best practices in the acquisition and management of contingent labor. Our Mission is to network and educate with the highest professional integrity for the purpose of growing VMS Best Practices and contributing to the industry as a whole.
