Gaia Reports Second Quarter 2020 Results

Revenues up 23%, Expects Positive Earnings and Free Cash Flow in Third Quarter

BOULDER, Colo., Aug. 03, 2020 (GLOBE NEWSWIRE) -- Gaia, Inc. (NASDAQ: GAIA), a conscious media and community company, reported financial results for the second quarter ended June 30, 2020.

Second Quarter 2020 Highlights vs. Same Year-Ago Quarter

- 23% increase in revenues to \$16.2 million.
- Generated \$1.9 million in Adjusted EBITDA, an improvement of \$3.5 million.
- Generated \$1.9 million in cash flow from operations, an improvement of \$4.4 million.

“The results for the second quarter represent 18 months of disciplined execution to drive operating efficiencies across the business while balancing growth initiatives and spend discipline,” said Paul Tarell, Gaia’s CFO. “We have continued to benefit from higher member growth due to the success of our exclusive content, smart marketing spend and improved retention, which has allowed Gaia to transition to positive earnings and free cash flows starting in July.”

Second Quarter 2020 Financial Results

Revenues in the second quarter increased 23% to \$16.2 million from \$13.2 million in the year-ago quarter. This was primarily due to growth in paying members and an increase in average revenue per member. Paying members increased to 663,400 as of June 30, 2020 with net member additions for the quarter of 58,300.

Gross profit in the second quarter increased 24% to \$14.1 million compared to \$11.4 million in the year-ago quarter. Gross margin increased to 87.1% versus 86.4% in the year-ago quarter.

Total operating expenses in the second quarter increased 4% to \$16.3 million from \$15.7 million in the year-ago quarter, primarily due to \$0.7 million in non-recurring share-based expense in the second quarter of 2020 for earn out consideration related to the strong performance of the acquisition Gaia completed in June 2019. Excluding this one-time charge, operating expenses improved to \$15.6 million or 96% of revenues from \$15.7 million or 119% of revenues in the year ago quarter. Customer acquisition costs as a percentage of revenue were 52% for the second quarter, an improvement from 57% in the year-ago quarter.

Net loss in the second quarter improved significantly to \$2.5 million, or \$(0.13) per share, compared to a net loss of \$4.5 million, or \$(0.25) per share, in the year-ago quarter.

Adjusted EBITDA also improved to \$1.9 million compared to \$(1.6) million in the year-ago quarter.

Gaia generated cash from operations of \$3.9 million in the first half of 2020 compared to cash used of \$5.2 million in the comparable year-ago period, an improvement of \$9.1 million.

Gaia's cash conversion cycle has continued to improve, with overall cash used during the quarter of \$1.6 million compared to a use of \$8.9 million in the year ago quarter (excluding incremental proceeds from Gaia's real estate refinancing).

As of June 30, 2020, Gaia had \$8.5 million in cash. Gaia intends to generate positive net income and free cash flow in the third quarter.

EBITDA represents net loss before interest expense, provision for income taxes, depreciation and amortization. Adjusted EBITDA is defined as EBITDA further adjusted to remove share-based compensation expense. EBITDA and Adjusted EBITDA do not represent net income, as that term is defined under GAAP, and should not be considered as an alternative to net income (loss) as an indicator of our operating performance.

Additionally, EBITDA and Adjusted EBITDA are not intended to be measures of free cash flow available for management or discretionary use as such measures do not consider certain cash requirements such as capital expenditures, tax payments and debt service requirements. EBITDA and Adjusted EBITDA as presented herein are not necessarily comparable to similarly titled measures.
