Arlen Nordhagen, Chief Executive Officer, commented, "NSA kicked off 2016 with robust first quarter results. Same store average occupancy was up 440 basis points year-over-year, which drove same store revenue growth of 9.1% and same store NOI growth of 11.3%. We are very pleased that the combination of our expanded portfolio and solid property operating results produced first quarter Core FFO per share of \$0.25, an increase of 19% over the same period last year. Our acquisition activity has exceeded our expectations as we closed on 17 self storage properties during the first quarter of 2016."

Mr. Nordhagen continued, "Second quarter 2016 is also producing strong results. The addition of our seventh Participating Regional Operator ("PRO"), Hide-Away Storage Services, Inc. ("Hide-Away"), on April 1, demonstrates our ability to continue to grow our PRO network, expanding our portfolio of self storage properties. Since March 31st, we have already acquired an additional 22 properties, including 14 properties from Hide-Away. Year to date, we have invested over \$260 million in self storage property acquisitions, adding over 2.7 million rentable square feet, which equates to more than a 17% increase in the Company's geographic footprint since December 31, 2015. Finally, we recently increased our balance sheet flexibility by expanding and extending our credit facility, positioning the Company well for its planned future growth."

Core FFO per share and unit	\$ 0.25	\$ 0.21

(1) Amounts represent distributions declared for subordinated performance unitholders and DownREIT subordinated performance unitholders for the periods presented.

(2) NSA combines OP units and DownREIT OP units with common shares because, after the applicable lock-out periods, OP units in the Company's operating partnership are redeemable for cash or, at NSA's option, exchangeable for common shares on a one-for-one basis and DownREIT OP units are also redeemable for cash or, at NSA's option, exchangeable for OP units in our operating partnership on a one-for-one basis, subject to certain adjustments in each case. Subordinated performance units, DownREIT subordinated performance units, and LTIP units may also, under certain circumstances, be convertible into or exchangeable for common shares (or other units that are convertible into or exchangeable for common shares). See footnote (4) for additional discussion of subordinated performance units, DownREIT subordinated performance units, and LTIP units in the calculation of FFO and Core FFO per share and unit.

(3) LTIP units have been excluded from the calculations of weighted average shares and units outstanding prior to April 28, 2015 because such units did not participate in distributions prior to the Company's initial public offering.

Reconciliation of Earnings (Loss) Per Share to FFO and Core FFO Per Share and Unit

	Three Months Ended March 31,	
	2016	2015
Earnings (loss) per share - diluted	\$ 0.07	\$ —
Impact of the difference in weighted average number of shares ⁽⁴⁾	0.03	—
Impact of GAAP accounting for noncontrolling interests, two-class method and treasury stock method ⁽⁵⁾	—	(0.14)
Add real estate depreciation and amortization	0.22	0.48
FFO attributable to subordinated performance unitholders	(0.09)	(0.16)
FFO per share and unit	0.23	0.18
Add acquisition costs and organizational and offering expenses	0.02	0.03
Core FFO per share and unit	\$ 0.25	\$ 0.21

(4) Adjustment accounts for the difference between the weighted average number of shares used to calculate diluted earnings per share and the weighted average number of shares used to calculate FFO and Core FFO per share and unit. Diluted earnings per share is calculated using the two-class method for the company's restricted common shares, the treasury stock method for certain unvested LTIP units, and includes the assumption of a hypothetical conversion of subordinated performance units and DownREIT subordinated performance units into OP units, even though such units may only be convertible into OP units (i) after a lock-out period and (ii) upon certain events or conditions. For additional information around the conversion of subordinated performance units and DownREIT subordinated performance units into OP units, see Note 8 in Item 1 to the Company's Quarterly Report on Form 10-Q for the three months ended March 31, 2016. The computation of weighted average shares and units for FFO and Core FFO per share and unit includes all restricted common shares and LTIP units that participate in distributions and excludes all subordinated performance units and DownREIT subordinated performance units because their effect has been accounted for through the allocation of FFO to the related unitholders based on distributions declared.

(5) Represents the effect of adjusting the numerator to consolidated net income (loss) prior to GAAP allocations for noncontrolling interests and the application of the two-class method and treasury stock method, as described in footnote (4).
