Forward-Looking Statements

This presentation contains forward-looking statements concerning Coda Octopus Group, Inc. within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Those forward-looking statements include, without limitation, statements regarding the Company's expectations for the growth of the Company's operations and revenue. Such statements are subject to certain risks and uncertainties, and actual circumstances, events or results may differ materially from those projected in such forward-looking statements. Factors that could cause or contribute to differences include, but are not limited to, customer demand for our products and market prices; the outcome of our ongoing research and developments efforts relating to our products including our patented real-time 3D solutions; our ability to develop the sales force required to achieve our development and other examples of forward looking statement set forth to our Annual Report on Form 10-K filed with the Securities and Exchange Commission on January 29, 2019, as amended on February 7, 2019 and April 23, 2019. Coda Octopus Group, Inc. does not undertake, and specifically disclaims any obligation to update or revise such statements to reflect new circumstances or unanticipated events as they occur.
Overview

• Established business with strong pedigree in marine products and defense engineering:

  **Products Business**
  Market leader in real-time 3D imaging sonar technology for multiple subsea defense and commercial applications. World’s only real-time 3D sonar technology – “seeing both static and moving objects and measuring in real-time in zero visibility conditions underwater.”

  **Engineering Business**
  Long-established relationships with U.S. and U.K. Defense Primes, such as Raytheon, Northrop and BAE, with a number of proprietary parts for significant programs such as Phalanx CIWS, yielding long-tail recurring and growing revenues.

• Strong culture of IP ownership in products’ segment and sole supplier status by engineering segment
• Near-term catalysts for additional growth across both business segments

How We Sell

COTS Products & Engineering Services

**Products**

*Product sales occur primarily through two channels:*

- **Direct Sales:** Most sales occur through our Sales teams in both the U.S. and U.K.
- **Agents:** We also use a wide network of third party agents to expand our reach around the world

**Services**

*Our engineering services are primarily sold through:*

- **Prime Partnerships:** We benefit from the small business allowance through our strategic relationships with primes such as Northrop Grumman, Raytheon, etc.
Echoscope\textsuperscript{4G®} Family of Volumetric Sonars

Visualization & Mapping for Widest Range of Applications

Echoscope\textsuperscript{4G®}

Echoscope\textsuperscript{4G®} Deep Water

SWaP (Size, Weight and Power)

Seeing & Measuring in Real-Time 3D in Zero Visibility Conditions Underwater
Coda Real-Time 3D Technology
Delivering Significant Performance Gains to our Customers

- Improved process with faster deliverables to client
- Reduced project costs, including non-productive time
- Complete end-to-end workflow to capture, measure and document
- Increased safety and awareness
- Improved Quality Control
- Simplified subsea tasks
- Deskilling a number of tasks

Echoscope® Surface Installation

Used on shallow water projects <50m water depth
Fitted on a pole, on cable installation vessel
Calibrated, survey grade data
Echoscope® combined with the Pan & Tilt, to constantly image the cable

Sample Echoscope Project ROI Snapshots

---

**Van Oord**
Port Construction Project

- Placed 24,000 CORE-LOC Armour Units
- Record Production Rates
- Cost Saving: Priceless
- Duration: 1-2 Years

---

**ZADCO**
Sleeper Placement

- Was: 4 sleepers placed in 12 hours
- Now: 76 sleepers placed in 24 hour shifts
- Productivity: > 3,000%
- Cost Saving: > $3 million
- Duration: 3-6 months

---

**UTEC**
Oilfield Development

- Zero Visibility Conditions
- Productivity: > 100%
- Cost Saving: Priceless
- Duration: 3 months

---

**DEME**
Rock Dumping

- Zero Visibility and Accurate Placement Required
- Productivity: > 100%
- Cost Saving: > $1 million
- Duration: 6 days

---

**Technip/Shell**

- Echoscope used in Zero Visibility
  - Saved significant NPT
- Productivity: > 100%
- Cost Saving: > $2 million
- Duration: 6 months
3D Product Line

Competing Technology is **No Comparison**

**Echoscope® 3D Real-Time Imaging Sonar**

Real-Time 3D Imaging **AND** Real-Time Mapping – see the shadows disappear!
Client deliverables complete in 54 seconds...

**3D Multibeam**
Produces static map after hours or days of processing
**NO Real-Time image**

**2D Scanning Sonar**
Produces static map after hours or days of processing
**NO Real-Time image**

**2D Imaging Sonar**
Produces 2D real-time image with no depths and **NO Mapping**
3D Product Line

What is the key USP?

Single Sensor, Multi-Application, for Vision, Mapping and Measurement

3D Complex Mapping
No Post Processing

3D Camera Mode
Unique

World's most diverse, functional and capable 3D sonar solution...
3D Product Line

Delivering on Everyday Challenges Subsea

Complex Asset Placement – Alaska Monopod Installation

• Four Echoscopes® used to provide real-time visualization of landing site and control stabilization for crane operators
• Software ‘models’ provided real-time indication of distance and alignment with landing interface
• Conventional placement and positioning methods ineffective

Oilfield Disaster Recovery

• Survey and mapping of complex 3D ‘Tendons’ enabling fast and effective removal
• Conventional methods ineffective and displaced
3D Product Line

Delivering on Everyday Challenges Subsea

Mineral Mining - Diamonds

- Operator can “see” exactly where each cut has taken place
- No overlapping of cuts
- Significant productivity benefit

Marine Construction - Breakwaters

- Echoscope® is the No. 1 preferred solution for subsea placement
- Crane operator can “see” and “track” and “place” the moving block underwater
- Complete scene awareness for operators, engineers and owners
- Construction deliverable sign off using our technology
**Strong Culture of IP**

**Total Product Package**

- Patents cover the spectrum of software and hardware capabilities of Coda Octopus Group's unique real-time 3D technology
- Proprietary hardware and software are the complete system; components do not function independently
- Further de-risked by trade-secret optimization techniques

End User Customers

Service Providers

Additional
3D Real-Time Echoscope Technology Advantage

Real-Time Underwater Decision Making

- Removes man out of the loop, thus reducing costs significantly and increasing repeatability of common tasks
- Enhances Safety, again by removing man out of the loop
- Facilitates near impossible missions without risking lives
- Provides the vehicle for mapping the ocean floor (far and wide)
Key Growth Market

Defense, Navy Activities, Law Enforcement and Coast Guards

- Search & Rescue and Recovery Missions
- Asset Identification & Reacquisition
- See & Identify Targets and Hazards
- Record & Map to gather intelligence and analyze threats & hazards, before committing higher value assets
- Real-Time Surveillance
- Ship Hull Scanning

Real-Time Decision Making

- Obstacle Avoidance for manned & unmanned missions
- Route Clearance Survey for foreign ports
- Mine & Threat location & identification
- Front end threat identification – landings, special forces incursion
- Port & Harbour Security
- Diving Applications

Unique technology to manage in real-time subsea threats
Real-Time 3D Imaging in Navy and Defense Applications

Strategic Development and Partnerships

Momentum has grown significantly within the U.S. Navy community for CODA’s industry-leading, real-time technology. The following groups are actively funding development, trials or purchases of Coda Octopus Echoscope® technology:

- Swimmer Delivery Vehicles
- Mine Counter Measures
- Ship Hull Inspection
- Salvage and Diver Support
- Critical Asset Inspection
- Real-Time Threat Detection
Case Example

Naval Sea Systems Command (NAVSEA), NSWC PCD

A Navy Cooperative Research and Development Agreement (CRADA) with Naval Surface Warfare Center, Panama City Division (NSWC PCD), for the multi-generation development of the Divers Augmented Vision Display-Head Up Display System (DAVD-HUD), in collaboration with NSWC PCD.

Value Drivers

- First mover in innovating and commercializing real-time 3D sonar technology for the subsea market
- No other commercially available real-time 3D sonar in the market
- Technically adept Group with strong brand as market leaders in real-time visualization subsea
- Multiple initiatives underway with U.S. Navy and defense bodies, and tracking significant development funding for further research and development for defense space
- Strong and growing global customer base and expanding market applications, including precious gem mining and offshore renewables
- Strong Patents and Intellectual Property Rights Portfolio
- Diversified Group, with two stand-alone engineering businesses, which have recurring streams of revenues through supplying proprietary parts into a number of funded U.S. Defense programs and UK Defense Programs, and the products business selling into the subsea market
Growth Catalysts

New Breakthrough Echoscope® 4G and 5G Technology

- Fourth Generation (4G) and Fifth Generation (5G) of Coda Octopus’ proprietary, industry-leading real-time 3D sonar technology
- All 4G Hardware Products Have Been Launched
- Final products within the 4G rollout due for release in the second half of 2019
  - Smart algorithms for the class-leading sonars
  - Top-end software products for many new capabilities
- **Goal:** Standardize proprietary real-time 3D imaging sonars, in different form factors, across existing and new subsea markets
  - Positioned to increase market share
  - Defense market is significant opportunity; Addressable Market is estimated at $4.5 billion

Coda Octopus Colmek – Engineering Business
Growth Catalysts

- **Two new funded defense programs added to Colmek’s portfolio in FY 2018**
  - Contracted to prototype two new parts for two significant programs. Value of contracted prototype is approximately $1.5M
  - Once prototype phase is completed and manufacturing contracts awarded, these parts will yield long-tail recurring revenues

- **Thermite® Octal**
  - Next Generation Product Line Extension for additional growth
  - Colmek’s rugged, configurable, versatile, high performance mission computer
  - Goal: Deliver new standard of field mobility to established Thermite® customer base
  - Technical refresh underway
  - Multiple Defense Applications
    - Man-worn robotic and backpack-worn
    - Manned/unmanned vehicles: airborne, land-based, maritime
  - Product roll-out of next generation of Thermite family of rugged embedded computers
    - Octal – initial next-gen Thermite technical refresh completed and now being promoted, including a number of significant customer trials – one of which is for integration into a military vehicle
    - Expect this product line to add $3-$7M to Colmek’s revenues annually

Coda Octopus Colmek – Engineering Business

Located in Portland, Dorset, UK. Martech follows the same model as Colmek.
Growth Catalysts

• Long-tail recurring revenues from ongoing Defense Customer Programs
  • Proprietary Chemical Decontamination Systems
    • Component of the Eurofighter Tycoon's Ground Equipment
    • Used to decontaminate pilot helmets that have come in contact with chemical weapons
    • Contracted for two new units, at approximately $300K per, in FY2018
    • Sales to date are approximately $2.4M since program inception, in 2011

• Increasing customer base via successful R&D Programs
  • Pump and Pressurization Controllers – Grundfos
    • Developed a series of proprietary fire sprinkler pump controllers in use by customers including Grundfos, a global leader in advanced pump solutions and trendsetter in water technology, as part of its FireSAFE product line
    • Developing a variant of the FireSAFE product, to address the requirements for sprinkler systems in high-rise residential installations, a growing market following the tragic Grenfell Tower fire in the UK
    • Designed and manufactured the pressurization controller, as part of Grundfos' Pressure Half Time (PHT) product line, used to maintain pressure in heating and cooling systems for residential and commercial applications
      • Shipped 1,200 of initial 3,000 pressurization controller unit order, in FY 2018

Management

Annmarie Gayle, LL.B, LLM – Chief Executive Officer and Chairman – Denmark

Ms. Gayle has been our CEO and a member of the Board of Directors since 2011. She has also been the CEO of our flagship Products Business since 2012. Prior thereto, she spent two years assisting with the restructuring of our company. She previously served with the Company as Senior Vice President of Legal Affairs between 2006 and 2007. Earlier in her career, she worked for a major London law practice, the United Nations, and the European Union. Ms. Gayle has a strong background in restructuring and has spent more than 12 years in a number of countries where she has been the lead adviser to a number of transitional administrations on privatizing banks and reforming state-owned assets in the CEE countries including banking, infrastructure and telecommunications assets. Ms. Gayle has also managed a number of large European Union funded projects. Ms. Gayle holds a Law degree gained at the University of London and a Masters of Law degree from Cambridge University. She is qualified to practice as a solicitor in England & Wales.

Michael Midgley – Chief Financial Officer; Chief Executive Officer of Coda Octopus Colmek, Inc. – U.S.

Mr. Midgley has been our CFO since December 2017, following his tenure as our acting CFO since 2013. Mr. Midgley also serves as Chief Executive Officer of Coda Octopus Colmek, Inc. since 2010, which he joined in 2008. Mr. Midgley’s 42 year career spans business, accounting and finance in many industries. He is an expert in data mapping and conversion to JD Edwards World General Accounting Software, and previously had his own CPA practice specializing in SEC and Tax practice areas, as well as worked for a regional accounting firm. He was President and CFO of Covol Technologies, Inc., 1991-1995, and CFO of Human Affairs Inc., 1986-1991. Mr. Midgley is a qualified CPA in the state of Utah, and attended the University of Utah where he obtained a BA in Accounting.
Mr. Cunningham has been with the company since July 2004 and has had a number of roles including his current position of President of Technology and CEO of Coda Octopus Products, Inc. CTO of Coda Octopus Group, Inc. since 2005 and Senior Vice President of Products Division between July 2004 and July 2005. Earlier in his career he worked for several firms as a systems analyst and developer. Mr. Cunningham has a strong background in technology development, design and large-scale software development with a key focus on process efficiency and end-user experience. Mr. Cunningham received an HND in Computer Science in 1989 from Moray College of Further Education, Elgin, Scotland. Because of Mr. Cunningham’s expertise in technology and delivery of large scale software projects, the company believes that he is highly qualified to serve in his current roles.
Coda Octopus Group

Board of Directors

Annmarie Gayle, LL.B, LLM – Chief Executive Officer and Chairman – Denmark

Ms. Gayle was appointed Chairman of the Board in March 2017, and previously served as Director since 2011. Additionally, Ms. Gayle has been the Group CEO since 2011; assisted with the restructuring of the Company, 2009-2010, and served as SVP of Coda’s Legal Affairs, 2006-2007. Earlier in her career she worked for a major London law practice, the United Nations and the European Union. Ms. Gayle has a strong background in restructuring and has spent more than 12 years in a number of countries where she has been the lead adviser to a number of transitional administrations on privatizing banks and reforming state-owned assets in the CEE countries including banking, infrastructure and telecommunications assets. Ms. Gayle has also managed a number of large European Union funded projects. Ms. Gayle holds a Law degree gained at the University of London and a Masters of Law degree from Cambridge University. She is qualified to practice as a solicitor in England & Wales.

Michael Hamilton, Director – U.S.

Mr. Hamilton served as Coda’s Chairman of the Board, June 2010-March 2017, and continues to serve as a Director. Since 2014, Mr. Hamilton has provided accounting and valuation services for a varied list of clients. His career includes serving as Senior Vice President of Powerlink Transmission Company, 2011-2014, and audit partner at PriceWaterhouseCoopers, 1988-2003. He holds a B.S. in Accounting from St. Frances College and is a Certified Public Accountant and is accredited in business valuation. Mr. Hamilton services as the Chair of both the Board’s Audit Committee and Compensation and Governance Committee, and as a member of its Nominating Committee.
Coda Octopus Group

Management

Mary M. Losty – Director – U.S.

Ms. Losty has been a member of Coda’s Board of Directors since July 2017. Ms. Losty is a private investor in both U.S. equities and real estate. Her career includes serving as a Partner at Cornwall Asset Management LLC, a U.S. portfolio management firm, where she was responsible for the firm’s investment in numerous small- to medium-cap emerging growth companies, 1998-2010. She was portfolio manager at Duggan & Associates, 1992-1998, and an equity research analyst at Kimelman & Company, 1990-1992. Previously she worked at Morgan Stanley & Co. and was the top aide to James R. Schlesinger, a five-time U.S. cabinet secretary. Former Board director positions include Procera Networks, Inc. 2007-2015, and Blue Earth, Inc. formerly Genesis Fluid Solutions Holdings, 2009-2011. Ms. Losty received her J.D. from Georgetown University Law Center and her B.S. from Georgetown University’s School of Foreign Service. Ms. Losty serves on the Board’s Audit and Nominating Committees.

J. Charles Plumb, Captain, USNR (Ret.) – Director – U.S.

Captain Plumb has been a member of Coda’s Board of Directors since September 2019. Captain Plumb is a retired U.S. Navy fighter pilot. On his 75th combat mission, just five days before the end of his tour in Vietnam, he was shot down over Hanoi, taken prisoner and tortured. During his nearly six years as a prisoner of war, he distinguished himself as a pro in underground communications. He was a great inspiration to all the other POWs and served as chaplain for two years. Following his repatriation, Captain Plumb continued his Navy flying career in Reserve Squadrons where he flew A-4 Sky Hawks, A-7 Corsairs and FA-18 Hornets. His last two commands as a Naval Reservist were on the Aircraft Carrier Corral Sea and at Fighter Air Wing in California. He retired from the United States Navy after 28 years of service. His military honors include two Purple Hearts, the Legion of Merit, the Silver Star, the Bronze Star and the P.O.W. Medal. He has been a motivational speaker, consultant and executive coach since 1973. His clients include General Motors, Fedex, Hilton, Aflac, the U.S. Navy, BMW and NASA. Since 2010, he has been member of the Board of Directors of the Lightspeed Aviation Foundation. Captain Plumb earned a B.S. in electrical engineering from the U.S. Naval Academy at Annapolis. We selected Captain Plumb because of his close ties to the U.S. Defense establishment.
G. Tyler Runnels - Director– U.S.

Mr. Runnels has been nominated by our board to be elected as a director at the 2018 annual meeting to fill a vacancy created by the departure of two of our directors. Mr. Runnels has nearly 30 years of investment banking experience including debt and equity financings, private placements, mergers and acquisitions, initial public offerings, bridge financings, and financial restructurings. Since 2003, Mr. Runnels has been the Chairman and Chief Executive Officer of T.R. Winston & Company, LLC, an investment bank and member of FINRA, where he began working in 1990. Mr. Runnels was an early stage investor in our company and T.R. Winston & Company, LLC has served as our exclusive placement agent in one of our private placements raising early rounds of capital for our company. Mr. Runnels has successfully completed and advised on numerous transactions for clients in a variety of industries, including healthcare, oil and gas, business services, manufacturing, and technology. Mr. Runnels is also responsible for working with high net attorneys, qualified intermediaries and financial advisors. Prior to joining T.R. Winston & Co., LLC, Mr. Runnels held the position of Senior Vice President of Corporate Finance for H.J. Meyers & Company, a regional investment bank. Mr. Runnels is a member of the Board of Directors of Level Brands, Inc. (NYSE American: LEVB) and serves on the Pepperdine University President’s Campaign Cabinet. Mr. Runnels received a B.S. and MBA from Pepperdine University. Mr. Runnels holds FINRA series 7, 24, 55, 63 and 79 licenses. We selected Mr. Runnels to serve on our board of directors based upon his significant expertise both as an investor and advisor, as well as his experience as a board member of a number of listed companies.
