

Tailored Brands, Inc. Reports Fiscal 2018 Third Quarter Results

- Q3 2018 retail segment comparable sales up 2.3% with all brands positive
- Q3 2018 GAAP diluted EPS of \$0.27 and adjusted diluted EPS⁽¹⁾ of \$1.01
- Q3 2018 custom sales averaged \$5 million per week, up 150% year-over-year
- Total debt reduced by \$40 million in Q3 2018; down \$300 million year-over-year
- Company updates outlook for FY 2018 adjusted diluted EPS to \$2.30 to \$2.35

FREMONT, Calif.--(BUSINESS WIRE)-- Tailored Brands, Inc. (NYSE: TLRD) today announced consolidated financial results for the fiscal third quarter ended November 3, 2018.

For the third quarter ended November 3, 2018, the Company reported GAAP diluted earnings per share of \$0.27 and adjusted diluted earnings per share⁽¹⁾ of \$1.01, compared to GAAP diluted earnings per share of \$0.75 for the same period a year ago. There were no adjusted items in last year's third quarter.

"We reported 2.3% positive comparable sales in the third quarter, with all retail brands delivering positive comparable sales. Our sales growth was driven primarily by custom suiting, which we sold at an average rate of \$5 million per week, up 150% versus last year," said Tailored Brands Executive Chairman Dinesh Lathi. "I am pleased with the team's execution on our custom growth strategy. During the quarter, we improved our custom offering's speed, selection and service, making custom even more compelling to consumers.

"That said, as the third quarter progressed we saw a softening of comparable sales due to lower transactions at Men's Wearhouse and that trend continued into November. As a result, we have taken a more cautious outlook on fourth quarter comparable sales for Men's Wearhouse and now expect fiscal 2018 adjusted diluted EPS of \$2.30 to \$2.35."

Lathi added, "We also executed our strategies to reduce inventories and debt to improve capital efficiency and strengthen our balance sheet. During the quarter, we reduced inventories 10% versus last year. We also successfully repriced our term loan, reducing the interest rate spread by 25 basis points, which lowers our annual cash interest expense by more than \$2 million. Our total debt is down approximately \$300 million versus a year ago."

Third quarter 2018 GAAP results include a goodwill impairment charge of \$24.0 million related to our corporate apparel business, \$9.4 million related to the repricing of the Company's term loan, \$6.4 million related to the retirement of our former CEO and \$0.6 million related to the previously announced closure of a rental product distribution center in the second quarter of 2018. Of the \$40.4 million total charges, \$34.3 million were non-cash.

- (1) In the third quarter of fiscal 2018, adjusted items consist of a goodwill impairment charge related to our corporate apparel business, a loss on extinguishment of debt related to the repricing of the Company's term loan, costs related to the retirement of our former CEO and costs related to the previously announced closure of a rental product distribution center in the second quarter of 2018. There were no adjusted items in last year's third quarter. See Use of Non-GAAP Financial Measures for additional information on items excluded from adjusted EPS.

(1) Amounts may not sum due to rounded numbers.

(2) Comparable sales is defined as net sales from stores open at least 12 months at period end and includes e-commerce sales. Due

to the 53-week to 52-week calendar shift, third quarter 2018 comparable sales are compared with the 13-week period ended November 4, 2017.

(3) The Moores comparable sales change is based on the Canadian dollar.

(4) On March 3, 2018, the Company sold its MW Cleaners business.

Net Sales

Total net sales increased 0.2% to \$812.7 million. Retail net sales increased 0.6% primarily due to an increase in retail clothing sales, which drove positive 2.3% retail comparable sales. This was partially offset by a \$7.3 million decrease in alteration and other services primarily resulting from the MW Cleaners divestiture.

Corporate apparel net sales decreased 3.6%, or \$2.3 million, primarily due to lower sales in the United Kingdom (“UK”) associated with uncertainty surrounding Brexit, as well as the impact of a weaker British pound this year. The Company now expects corporate apparel net sales to decrease by a mid-single-digit percentage in fiscal 2018, primarily due to continued soft trends in the UK business, versus previous guidance of a low-single-digit percentage decrease.

Comparable Sales

Men’s Wearhouse comparable sales increased 1.7%. Comparable sales for clothing increased primarily due to an increase in average unit retail partially offset by a decrease in both units per transaction and transactions. Comparable rental services revenue decreased 0.6%, primarily reflecting the trend to purchase suits for special occasions partially offset by the impact of more weddings in the third quarter, which included the vanity wedding date of August 18, 2018, (“8/18/18”). The Company expects to report comparable rental services revenue in the fourth quarter of up low-single-digits versus last year and still expects to report a mid-single-digit decrease in rental services revenue for fiscal 2018.

Jos. A. Bank comparable sales increased 3.8% primarily due to an increase in both transactions and average unit retail, partially offset by a decrease in units per transaction.

K&G comparable sales increased 4.0% due to increases in transactions, units per transaction and average unit retail.

Moores comparable sales increased 1.2% primarily due to an increase in transactions partially offset by a decrease in units per transaction, while average unit retail was flat.

Gross Margin

On a GAAP basis, consolidated gross margin was \$362.7 million, an increase of \$4.0 million, primarily due to the increase in retail clothing product sales. As a percent of sales, consolidated gross margin increased 40 basis points to 44.6%. On an adjusted basis, consolidated gross margin increased 40 basis points, primarily due to leveraging of occupancy costs.

On a GAAP basis, retail segment gross margin was \$346.1 million, an increase of \$4.1 million, primarily due to the increase in retail clothing product sales. As a percent of sales, retail segment gross margin increased 20 basis points to 46.0%. On an adjusted basis, retail segment gross margin increased \$4.1 million, or 20 basis points, primarily due to leveraging of occupancy costs.

Advertising Expense

Advertising expense decreased \$1.3 million to \$37.3 million and decreased 20 basis points as a percent of sales to 4.6%.

Selling, General and Administrative Expenses (“SG&A”)

On a GAAP basis, SG&A increased \$2.8 million to \$246.3 million and increased 30 basis points as a percent of sales. On an adjusted basis, SG&A decreased \$4.1 million to \$239.3 million primarily due to lower share-based compensation and the impact of the MW Cleaners divestiture partially offset by higher store commissions. As a percent of sales, adjusted SG&A decreased 60 basis points to 29.4%.

Goodwill Impairment Charge

During the third quarter of 2018, sales, profitability and cash flow of our corporate apparel segment underperformed in comparison to our forecast. The performance of our corporate apparel business was and continues to be impacted by increasing uncertainty surrounding Brexit, which is resulting in lower replenishment demand from existing accounts in the UK. In addition, in the third quarter of 2018, we received notification from a significant U.S. customer of their decision not to renew their existing agreement with us in 2019. As a result of the continued uncertainty surrounding Brexit and the notification from our U.S. customer, we lowered our forecast of sales, profitability and cash flow for the corporate apparel segment for the fourth quarter of 2018 and future years.

As a result of the factors above, we determined that a triggering event occurred during the third quarter of 2018 and an interim goodwill impairment test for our corporate apparel segment was required. We concluded that the segment’s goodwill was fully impaired and recorded a non-cash goodwill impairment charge of \$24.0 million during the third quarter of 2018.

Operating Income

On a GAAP basis, operating income was \$55.1 million compared to \$76.6 million last year. On an adjusted basis, operating income was \$86.1 million, up 12.3% compared to \$76.6 million last year. As a percent of sales, adjusted operating margin increased 110 basis points to 10.6%.

Net Interest Expense and Net Loss on Extinguishment of Debt

Net interest expense was \$18.6 million compared to \$24.3 million last year. The decrease in interest expense resulted from the reduction of outstanding debt.

On a GAAP basis, net loss on extinguishment of debt was \$9.4 million compared to a net gain on extinguishment of debt of \$2.5 million last year. The net loss on extinguishment of debt resulted from the repricing of our term loan and consisted of the write-off of original issue discount and deferred financing costs. On an adjusted basis, there was no net loss on extinguishment of debt for the quarter compared to a net gain on extinguishment of debt of \$2.5 million in the third quarter last year.

Effective Tax Rate

On a GAAP basis, the effective tax rate was 48.9% compared to 32.8% last year. The increased rate this year primarily reflects the non-deductibility of both the goodwill impairment charge and CEO retirement costs. On an adjusted basis, the effective tax rate was 23.9% compared to 32.8% last year. Both the GAAP and the adjusted effective tax rates reflect the impact of the Tax Cuts and Jobs Act of 2017.

Net Earnings and EPS

On a GAAP basis, net earnings were \$13.9 million compared to \$36.9 million last year. Diluted EPS was \$0.27 compared to \$0.75 last year.

On an adjusted basis, net earnings were \$51.4 million compared to \$36.9 million last year. Adjusted diluted EPS was \$1.01 compared to \$0.75 last year.

Balance Sheet Highlights

Cash and cash equivalents at the end of the third quarter of 2018 were \$68.4 million, a decrease of \$57.8 million compared to the end of the third quarter of 2017, resulting from the use of cash on hand in the second quarter of 2018 to fund a portion of the \$175 million partial redemption of senior notes. At the end of the third quarter of 2018, there were \$58.5 million of borrowings outstanding on our revolving credit facility.

Inventories decreased \$98.0 million to \$875.0 million at the end of the third quarter of 2018, compared to the end of the third quarter of 2017, primarily due to a 10% reduction in retail segment inventories.

During the third quarter, the Company made its scheduled \$2.3 million payment on its term loan and repaid \$46.0 million on its revolving credit facility. Total debt at the end of the third quarter of 2018 was approximately \$1.2 billion, a decrease of \$299.6 million compared to the end of the third quarter of 2017.

Cash flow from operating activities for the nine months ended November 3, 2018, was \$277.8 million compared to \$252.5 million last year. The increase was driven by higher net earnings, after adjusting for certain items primarily related to extinguishment of debt and goodwill impairment, and favorable timing fluctuations in accounts payable, partially offset by an increase in inventories ahead of the fourth quarter holiday season.

Capital expenditures for the nine months ended November 3, 2018, were \$46.9 million compared to \$56.0 million last year.

FISCAL 2018 FOURTH QUARTER AND FULL YEAR OUTLOOK

The Company is providing guidance for the fourth quarter of 2018 and updating its outlook for full year fiscal 2018 as follows:

Q4 2018

- **Earnings per Share:** The Company expects to achieve adjusted diluted loss per share in the range of \$0.24 to \$0.29.
- **Comparable Sales:** The Company expects comparable sales for:
 - Men's Wearhouse to be down low-single-digits
 - Jos. A. Bank to be up low-single-digits
 - Moores to be up low-single-digits
 - K&G to be flat-to-up slightly.
- **Non-Comparable Sales:**
 - The Company expects to report corporate apparel net sales of \$55 million to \$60 million
 - The 53rd week last year contributed \$45.7 million of net sales and \$0.05 diluted earnings per share

FY 2018

- **Earnings per Share:** The Company expects to achieve adjusted diluted EPS in the range of \$2.30 to \$2.35, versus its previous range of \$2.35 to \$2.50.
- **Comparable Sales:** The Company expects comparable sales for:
 - Men's Wearhouse to be flat-to-up slightly versus previous guidance of up low-single-digits
 - Jos. A. Bank to be up low-single-digits

- Moores to be up low-single-digits
- K&G to be flat-to-up slightly.
- **Effective Tax Rate:** The Company now expects an effective tax rate of between 23% and 24% versus previous guidance of approximately 25%.
- **Inventory:** The Company continues to expect to reduce inventories by a high-single-digit percentage.
- **Capital Expenditures:** The Company now expects capital expenditures of approximately \$90 million versus previous guidance of approximately \$100 million.
- **Depreciation and Amortization:** The Company continues to expect depreciation and amortization of approximately \$100 million.
- **Real Estate:** The Company continues to expect approximately net 10 store closures in 2018 resulting from its continuous review of its real estate portfolio for opportunities to optimize its fleet as lease terms expire.

The Company noted that fiscal 2018 is a 52-week year versus the 53-week fiscal 2017.

TAILORED BRANDS, INC.**UNAUDITED NON-GAAP FINANCIAL MEASURES**

(In thousands, except per share amounts)

Use of Non-GAAP Financial Measures

In addition to providing financial results in accordance with GAAP, we have provided adjusted information, if applicable, for our fiscal third quarter and nine months ended November 3, 2018 and October 28, 2017. This non-GAAP financial information is provided to enhance the user's overall understanding of the Company's financial performance by removing the impacts of large, unusual or unique transactions that we believe are not indicative of our core business results. For the third quarter of fiscal 2018, adjusted items consist of a goodwill impairment charge related to our corporate apparel business, a loss on extinguishment of debt related to the repricing of the Company's term loan, costs related to the retirement of our former CEO and costs related to the closure of a rental product distribution center. There were no adjusted items in last year's third quarter.

Management uses these adjusted results to assess the Company's performance, to make decisions about how to allocate resources and to develop expectations for future performance. In addition, adjusted EPS is used as a performance measure in the Company's

executive compensation program to determine the number of performance units that are ultimately earned for certain equity awards.

The non-GAAP financial information should be considered in addition to, not as a substitute for or as being superior to, financial information prepared in accordance with GAAP. Management strongly encourages investors and shareholders to review the Company's financial statements and publicly filed reports in their entirety and not to rely on any single financial measure.

A reconciliation of full year fiscal 2018 adjusted EPS, which is a forward-looking non-GAAP financial measure, to the most directly comparable GAAP financial measure, is not provided because the Company is unable to provide such reconciliation without unreasonable effort. The inability to provide this reconciliation is due to the uncertainty and inherent difficulty predicting the occurrence, the financial impact and the periods in which the non-GAAP adjustments may be recognized. These GAAP measures may include the impact of items such as costs related to optimizing our capital structure and the tax effect of such items. Historically, the Company has excluded these types of items from non-GAAP financial measures. The Company currently expects to continue to exclude these items in future disclosures of non-GAAP financial measures and may also exclude other items that may arise. The decisions and events that typically lead to the recognition of non-GAAP adjustments are inherently unpredictable as to if or when they may occur. For the same reasons, the Company is unable to address the probable significance of the unavailable information, which could be material to future results.

Reconciliations of non-GAAP information to our actual results follow and amounts may not sum due to rounded numbers. In addition, only the line items affected by adjustments are shown in the tables.
