# Arotech's Training and Simulation Division Starts 2013 With \$4.5 Million in New Awards

## - Division backlog at over \$70 million

ANN ARBOR, Mich., Feb. 19, 2013 /PRNewswire/ -- Arotech Corporation's (NasdaqGM: ARTX) Training and Simulation Division (ATSD) has secured \$4.5 million in new project awards since the beginning of 2013. At the end of January, ATSD backlog was over \$70 million.

The new funding spans all ATSD business units and is highlighted by significant awards for the US Air Force Zone Acquisition Process pilot weapon employment software programs, the US Air National Guard Boom Operator Simulator program, the City of Raleigh Capital Area Transit bus simulator, a Stanford University driving simulator, and the City of Fontana Driving combination driving and use-of-force simulator.

"After finishing 2012 with record revenue, we are encouraged that our Training and Simulation Division has started 2013 so strongly, with a high level of backlog and many exciting opportunities in the pipeline," commented Robert S. Ehrlich, Arotech's Chairman and Chief Executive Officer. "The breadth of these new project wins across all the Training and Simulation Division's business units highlights great diversification within our product line and customer base."

## About Arotech's Training and Simulation Division

Arotech's Training and Simulation Division (ATSD) provides world-class simulation based training solutions. ATSD develops, manufactures, and markets advanced high-tech multimedia and interactive digital solutions for engineering, use-of-force, and operator training simulations for military, law enforcement, security, municipal and private industry personnel. The division's fully interactive operator training systems feature state-of-the-art vehicle simulator technology enabling training in situation awareness, risk analysis and decision-making, emergency reaction and avoidance procedures, conscientious equipment operation, and crew coordination. The division's use-of-force training products and services allow organizations to train their personnel in safe, productive, and realistic environments. The division provides consulting and developmental support for engineering simulation solutions. The division also supplies pilot decision-making support software for the F-15, F-16, F-18, F-22, and F-35 aircraft, simulation models for the ACMI/TACTS air combat training ranges, and Air-Refueling Boom Arm simulators.

Arotech's Training and Simulation Division consists of FAAC Incorporated (<http://www.faac.com>), IES Interactive Training (<http://www.ies-usa.com>), and Realtime Technologies (<http://www.simcreator.com>).

## About Arotech Corporation

Arotech Corporation is a leading provider of quality defense and security products for the military, law enforcement and homeland security markets, including multimedia interactive simulators/trainers and advanced zinc-air and lithium batteries and chargers. Arotech operates through two major business divisions: Training and Simulation and Battery and Power Systems.

Arotech is incorporated in Delaware, with corporate offices in Ann Arbor, Michigan, and research, development and production subsidiaries in Alabama, Michigan, and Israel. For more information on Arotech, please visit Arotech's website at <http://www.arotech.com>.
