Arotech Battery and Power Systems Division Announces Over \$6 Million in Orders

ANN ARBOR, Michigan, July 21, 2014 /PRNewswire/ --

Arotech Corporation (Nasdaq GM: ARTX) today announced that its Battery and Power Systems Division has received \$6.2 million in new orders. The orders were all for battery and related products for military applications.

"We are pleased with the ongoing technological advances by our battery division," **commented Arotech's Chairman and Chief Executive Officer, Robert S. Ehrlich.** "We continue to expand our sales, selling new products to our existing customers as well as gaining new customers, all of which appreciate the quality, stability and performance of our battery technology. Our power technologies are actively used in many varied military applications - from portable soldier wearable batteries, to large scale batteries for submarines. Batteries for military applications have the most stringent requirements for safety and performance. Our continued sales growth is a testament to the outstanding performance of our products in the toughest of environments."

About Arotech's Battery and Power Systems Division

Arotech's Battery and Power Systems Division is a leading provider of primary and rechargeable batteries and chargers for defense and other military applications and of electronic components and subsystems primarily for military, aerospace and industrial customers. Arotech develops and produces high power zinc-air batteries and is believed to be the sole supplier of this technology to the U.S. military. In addition, Arotech develops high-end primary and secondary batteries and associated chargers, as well as (i) hybrid power generation systems, (ii) smart power subsystems for military vehicles and dismounted applications, and (iii) aircraft and missile systems support for cutting-edge weapons and communications technologies, and has vast experience in working with government agencies, the military and large corporations. The Battery and Power Systems Division consists of Electric Fuel Battery Corporation (<http://www.efbpower.com>), Epsilon-Electric Fuel Ltd. (<http://www.epsilon.com>; <http://www.electric-fuel.com>), and UEC Electronics, LLC (<http://www.uec-electronics.com>).

About Arotech Corporation

Arotech Corporation is a leading provider of quality defense and security products for the military, law enforcement and homeland security markets, including multimedia interactive simulators/trainers and advanced zinc-air and lithium batteries and chargers. Arotech operates two major business divisions: Training and Simulation, and Battery and Power

Systems.

Arotech is incorporated in Delaware, with corporate offices in Ann Arbor, Michigan, and research, development and production subsidiaries in Alabama, Michigan, South Carolina and Israel. For more information on Arotech, please visit Arotech's website at <http://www.arotech.com>.

Except for the historical information herein, the matters discussed in this news release include forward-looking statements, as defined in the Private Securities Litigation Reform Act of 1995. Forward-looking statements reflect management's current knowledge, assumptions, judgment and expectations regarding future performance or events. Although management believes that the expectations reflected in such statements are reasonable, readers are cautioned not to place undue reliance on these forward-looking statements, as they are subject to various risks and uncertainties that may cause actual results to vary materially. These risks and uncertainties include, but are not limited to, risks relating to: product and technology development; the uncertainty of the market for Arotech's products; changing economic conditions; delay, cancellation or non-renewal, in whole or in part, of contracts or of purchase orders (including as a result of budgetary cuts resulting from automatic sequestration under the Budget Control Act of 2011); and other risk factors detailed in Arotech's most recent Annual Report on Form 10-K, as amended, for the fiscal year ended December 31, 2013 and in Exhibit 99.3 to Arotech's Current Report on 8-K, filed on April 1, 2014, and other filings with the Securities and Exchange Commission.
