NETSOL Technologies Reports Fiscal Second Quarter 2019 Financial Results

Revenue Growth of 18% to \$17 Million and EPS of \$0.25 Leads to Fifth Consecutive Quarter of Profitability

CALABASAS, Calif., Feb. 13, 2019 (GLOBE NEWSWIRE) -- **NETSOL Technologies, Inc.** (NASDAQ: [NTWK](#)), a global business services and enterprise application solutions provider, reported results for the fiscal second quarter ended December 31, 2018.

Second Quarter and Recent Operational Highlights

- Made significant strides in the ongoing implementation process for the deployment of NFS Ascent™ Retail and Wholesale platforms with European tier-one global auto captive in China related to the \$30 million contract signed in September 2018.
- Commenced implementation of NFS Ascent Retail platform at captive auto leasing company of a major US based auto manufacturer in China.
- Successfully began the implementation process of NFS Ascent™ Wholesale module in Japan for German auto manufacturing giant as part of the ongoing international deployment associated with the previously announced 12-country, \$110 million contract.
- Initiated process to implement NFS Ascent Solution in Singapore, Malaysia, Hong Kong and Thailand as part of the previously announced 12-country, \$110 million contract.
- Secured a mid-six-figure SaaS contract with a leading automotive leasing company covering all of Canada for a key automotive brand to provide access to the LeasePak Cloud product.
- Appointed industry veteran Hui Liang as company's President of China to expand footprint in the region and improve existing relationships with key customers.
- Generated nearly \$1.8 million through successfully implementing change requests from various customers across major business regions.
- Dedicated additional resources to data science and blockchain development initiatives in both Pakistan and Thailand to create new tools and products focused on machine learning and vehicle tracking as part of the company's broader Innovation Lab efforts.

Fiscal Second Quarter 2019 Financial Results

Total net revenues for the second quarter of fiscal 2019 were \$17.0 million, compared with

\$14.4 million in the prior year period. The increase in total net revenues was primarily due to an increase in total license fees of \$4.4 million, which was offset by a decrease in total services revenues of \$1.8 million.

- Total license fees were \$4.8 million, compared with \$453,000 in the prior year period.
- Total maintenance fees were \$3.7 million, compared with \$3.7 million in the prior year period.
- Total services revenues were \$8.5 million, compared with \$10.3 million in the prior year period.

Gross profit for the second quarter of fiscal 2019 was \$8.9 million (or 52.1% of total net revenues), compared to \$6.7 million (or 46.3% of total net revenues) in the second quarter of fiscal 2018. The increase in gross profit as a percentage of net revenues was primarily due to an increase in total net revenues of \$2.6 million, which was offset by an increase in the cost of revenues of \$386,000.

Operating expenses for the second quarter of fiscal 2019 increased 5% to \$6.7 million (or 39.2% of total net revenues) from \$6.4 million (or 44.1% of total net revenues) for the second quarter of fiscal 2018. The increase in operating expenses was primarily due to increases in salaries and wages, research and development expenses and professional services expenses, which were offset by decreases in selling and marketing expenses, depreciation, and general and administrative expenses.

Net income attributable to NETSOL for the second quarter of fiscal 2019 totaled \$2.9 million or \$0.25 per diluted share, an improvement from net income of \$634,000 or \$0.06 per diluted share in the second quarter of fiscal 2018.

Non-GAAP adjusted EBITDA for the second quarter of fiscal 2019 totaled \$4.1 million or \$0.35 per diluted share, an improvement from \$2.1 million or \$0.19 per diluted share in the second quarter of fiscal 2018 (see note regarding "Use of Non-GAAP Financial Measures," below for further discussion of this non-GAAP measure).

At December 31, 2018, cash and cash equivalents were \$20.3 million, an increase from \$10.0 million at the end of the prior year quarter.

Management Commentary

"The second quarter was yet another period of strong, consistent performance for NETSOL, driven by various new business wins throughout our major operating regions as well as ongoing implementations for some of the larger contracts we've secured over the past few months," said company Co-Founder, Chairman and Chief Executive Officer Najeeb Ghauri. "Financially, this healthy combination translated to 18% revenue growth year-over-year as well as our fifth consecutive profitable quarter. Operationally, with a number of significant near-term opportunities before us, we remain highly confident in our ability to generate healthy top and bottom line results for the remainder of the year and remain in solid positioning to achieve our previously stated goal of double-digit topline growth for fiscal 2019."

Sales Outlook

“NETSOL’s total global pipeline remains robust, especially in our APAC region, where we are seeing demand grow for both our products and services,” added President and Head of Sales Naeem Ghauri. “Additionally, we are continuing to benefit from our local business knowledge and strong relationships as many of our competitors struggle to establish a presence in the region. Going forward, we are cognizant of the various, emerging macro-economic challenges in China and will continue to monitor these issues closely. However, we are still seeing healthy interest from our existing customers who are investing in our systems to derive additional efficiencies that should aid them in addressing potential corrections in their respective markets. Looking ahead to the remainder of the year, we are currently in good positioning on a number of customer ‘shortlists’ for large-scale programs where we believe we have a good chance of success and remain bullish on our forecasts for fiscal 2019.”
