InfuSystem Receives Contract Offers for Infusion Pumps in All Nine Markets Put out to Bid by the Centers for Medicare & Medicaid Services (“CMS”)

Company Reaffirms Prior Revenue Guidance

MADISON HEIGHTS, Mich.-- InfuSystem Holdings, Inc. (NYSE MKT: INFU) (“InfuSystem” or the “Company”), a leading national provider of infusion pumps and related services for the healthcare industry in the United States, said that it has received offers to provide external infusion pumps and supplies in all nine of the Metropolitan Statistical Areas (“MSAs”) put out to bid by CMS.

The MSAs include: Charlotte, Cincinnati, Cleveland, Dallas, Kansas City, Orlando, Miami, Pittsburgh, and Riverside (CA).

“While these nine MSAs selected by CMS only represent approximately 1% of our Company’s current revenues, we are extremely pleased that our winning bids were in line with and some cases exceeded our expectations,” stated InfuSystem Chief Executive Officer Eric Steen. “It says a great deal about the quality of the entire InfuSystem team and our understanding of the changing national medical care environment.”

Mr. Steen also reaffirmed that the Company’s recent guidance of high single digit revenue growth in 2014 has not changed. “We continue to believe that competitive bidding will create opportunities for those companies that are efficient enough to capitalize on them. InfuSystem offers the most cost-effective model to deliver infusion therapy at home as an extension of in-clinic infusion therapy. The Affordable Care Act ensures that this market will continue to expand, especially for treatment of multiple therapies and disease states.”
