For the nine months ended September 30, 2013, the Company reported revenue of \$253.5 million, compared to \$201.5 million in the comparable period of the previous year. The Company reported non-GAAP earnings per share of \$0.30 per diluted share for the third quarter 2013, up 88% from the \$0.16 per diluted share reported for the third quarter of 2012, and \$0.65 per diluted share for the nine months ended September 30, 2013, up 91% from the \$0.34 per diluted share reported for the same period in the previous year.

The Company's cash and cash equivalents increased \$15.3 million to \$44.2 million during the quarter and total debt was reduced by \$2.5 million.

"I am very pleased to report our third quarter results. We exceeded our revenue and earnings guidance and improved our non-GAAP gross profit margin to 61%," said Jim Hawkins, President and Chief Executive Officer of the Company. "This was driven by stronger than expected results from both our neurology and newborn care businesses. Both our domestic and international results exceeded our expectations and we saw noticeable improvements in the European market. We also ended the quarter with a higher order backlog."

"Our third quarter non-GAAP operating margin of 15% is very satisfying and we now expect to reach our full-year 2013 non-GAAP operating profit margin goal of 12%. These results move us closer to our long-term non-GAAP operating profit margin goal of 13% to 17%," Hawkins added. "We have made great progress in our operating results and cash generation while building market leading franchises in both Neurodiagnostics and Newborn Care."

Financial Guidance

The Company increased revenue and earnings guidance for the fourth quarter and full year

2013.

For the fourth quarter 2013, the Company now expects revenue of \$87 million to \$90 million and non-GAAP earnings per share of \$0.30 to \$0.32. This compares to prior revenue guidance for the fourth quarter 2013 of \$84 million to \$88 million and non-GAAP earnings per share of \$0.22 to \$0.25.

For the full year 2013 the Company now expects revenue of \$340 million to \$343 million and non-GAAP earnings per share of \$0.95 to \$0.97. This compares to prior revenue guidance for the full year 2013 of \$332 million to \$338 million and non-GAAP earnings per share of \$0.76 to \$0.82.

Included in the Company's 2012 third and fourth quarter revenues were one time shipments of proprietary product to CareFusion. Natus agreed to manufacture this product for CareFusion through a supply agreement that was part of the purchase of Nicolet. These one-time revenues totaled \$3.4 million; \$1.2 million in the third quarter and \$2.2 million in the fourth quarter of 2012.

The Company's non-GAAP earnings guidance excludes amortization of acquisition related intangibles, acquisition related charges, restructuring charges, and their related tax effects.

The Company's non-GAAP earnings guidance includes the impact of expensing employee share based compensation. All non-GAAP earnings per share amounts are on a diluted basis.

Use of Non-GAAP Financial Measures

The Company's non-GAAP results exclude amortization expense associated with certain acquisition-related intangibles, restructuring charges, and direct costs of acquisitions. A reconciliation between non-GAAP and GAAP financial measures is included on page 6 of this press release.

The Company believes that the presentation of results excluding these charges provides meaningful supplemental information to both management and investors that is indicative of the Company's core operating results. Therefore, the Company believes these non-GAAP financial measures facilitate comparison of operating results across reporting periods.

The Company believes that both management and investors benefit from referring to these non-GAAP financial measures in assessing the Company's performance and when planning, forecasting, and analyzing future periods. These non-GAAP financial measures also facilitate management's internal comparisons to the Company's historical performance. The non-GAAP financial measures disclosed by the Company should not be considered a substitute for or superior to financial measures calculated in accordance with GAAP, and the financial results calculated in accordance with GAAP and reconciliations to those financial statements should be carefully evaluated.
