About the Drexel Hamilton Emerging Growth Conference

Drexel Hamilton's Equity Research team regularly conducts interactive industry conferences for institutional investors. Throughout 2016 they will be hosting companies from their research coverage universe, as well as other companies. All conferences will offer one-on-one meeting opportunities with the management teams of the presenting companies. Drexel Hamilton's conferences also include important industry participants, such as Pentagon officers at their Aerospace & Defense Conference. In addition to the valuable content, attendees will have an opportunity to meet the many service-disabled veterans who comprise about a quarter of their staff and who are actively operating Drexel Hamilton on a daily basis. Drexel Hamilton is a mid-sized, full-service brokerage firm active in the equity and debt markets. They offer research, corporate access, sales, trading and investment banking services. The firm is committed to maintaining a concentration of at least 40 percent military and service-disabled veteran employees. For more details, please click [here](#).

About the 9th Annual LD Micro Main Event

LD Micro was founded in 2006 with the sole purpose of being an independent resource in the microcap space. What started out as a newsletter highlighting unique companies has transformed into an event platform hosting several influential conferences annually (Invitational, Summit, and Main Event). In 2015, LDM launched the first pure microcap index (the LDMi) to exclusively provide intraday information on the entire sector. LD will continue to provide valuable tools for the benefit of everyone in the small and microcap universe. It is a non-registered investment advisor. For more details, please click [here](#).

About Ener-Core

Irvine, California-based Ener-Core, Inc. (OTCQB: ENCR) owns and licenses its proprietary Power Oxidation technology, which has already been commercially deployed and generates base load, clean power from polluting waste gases including methane. Ener-Core's patented Power Oxidizer turns one of the most potent pollution sources into a profitable, "always on" source of clean energy. Ener-Core's technology offers an alternative to the flaring (burning) of gaseous pollution while generating operating efficiencies and reducing the costs of compliance with environmental regulations. Ener-Core offers the 250kW Ener-Core EC250 and the larger, 2 MW Ener-Core Powerstation KG2-3GEF/PO. For more information, please visit www.ener-core.com.
