Cleartronic's (CLRI) ReadyOp Software Platform Now Being Used by LA Metro

BOCA RATON, Fla., Dec. 05, 2017 (GLOBE NEWSWIRE) -- Cleartronic, Inc. (OTCPINK:CLRI) announced that its wholly-owned subsidiary, ReadyOp Communications, Inc., has signed LA Metro, the largest mass transit authority in the Los Angeles area, as a new client.

ReadyOp

ReadyOp is currently in use by many local, state and federal agencies, hospitals, schools and universities and corporations for daily operations, incident and emergency response planning, regional fusion and coordination, continuity of operations (COOP) planning, and for event planning and operations. ReadyOp is the only program that provides planning, operations and communications, including two-way radio communications, in a single platform.

[LA Metro](#) operates the third-largest public transportation system in the United States by ridership and is also the primary transit provider for [Los Angeles County](#) and the [City of Los Angeles](#). LA Metro operates bus, light rail, heavy rail, and bus rapid transit services and provides funding and directs planning for commuter rail and freeway/expressway projects within Los Angeles County. With over 9,000 employees, it is one of the region's largest employers

"We are very pleased to have LA Metro as a client. LA Metro works directly with the [Los Angeles Police Department](#), the [Los Angeles Sheriff's Department](#) and the [Long Beach Police Department](#) on a daily basis to provide a safe and secure environment for their riders. Additionally, due to their large size and extensive transit area, LA Metro also interfaces with many other jurisdictions and agencies. ReadyOp is an ideal platform for planning, response, communications and coordination within and between these

organizations,” said Marc Moore, CEO of ReadyOp Communications.

[ReadyOp](#) provides a single, secure location for organizations to consolidate incident and emergency plans, rosters, tasks, roles, groups and more. Agencies plan personnel and roles, emergency operations, callout teams and other groups that may be needed. ReadyOp also enables users to communicate and interact quickly and efficiently with each other using voice, text, emails and two-way radios regardless of their location.

ReadyOp is currently in use by [many local, state and federal agencies](#), hospitals, schools and universities and corporations for daily operations, incident and emergency response planning, regional fusion and coordination, continuity of operations (COOP) planning and for event planning and operations. ReadyOp is the only program that provides planning, operations and communications, including two-way radio communications, in a single platform.
