Cavendish Selects Amaranthus to Present at the Cavendish Global Health Impact Forum

Forum Uniquely Brings Together Leading Family Offices and Their Foundations Seeking Impact Investment, Grant-Giving, and Philanthropy Opportunities Within Health and Life Sciences

SAN FRANCISCO and NEW YORK, March 26, 2014 (GLOBE NEWSWIRE) -- Amaranthus Bioscience Holdings, Inc. (OTCQB:AMBS), a biotechnology company focused on the discovery and development of novel diagnostics and therapeutics related to neurodegeneration and apoptosis, announced today that it has been selected to present at the Cavendish Global Health Impact Forum taking place May 5-7 in New York, NY. The purpose of the Forum is to help family offices and foundations develop and implement their individual pro-social impact investing, grant-giving, and philanthropy programs within health and the life sciences. To accomplish this mission the Forum showcases presentations and panel discussions by leading scientists, accomplished healthcare delivery professionals, health-policy experts and the private-sector engaged in developing innovations with the potential for transformational impact on disease prevention, diagnosis and treatment.

Michael Moffat, Cavendish co-founder and President explains, "With the help of our expert advisors, we conduct a global search of research institutions and the private-sector in order to identify organizations that meet the required standard of scientific excellence. We believe the quality and originality of Amaranthus' research positions them to make a major contribution to the diagnosis and treatment of Alzheimer's disease around the world."

"We are honored to be selected to present at this unique event, and it is further recognition of our innovative research and discoveries which may lead to better diagnosis and treatment of Alzheimer's," said Gerald Commissiong, President and CEO "We welcome the chance to interact with many of the world's leading scientific minds, thought-leaders and generous philanthropic individuals and families who are all dedicated to the common cause of improving the health and lives of people around the world. Alzheimer's disease is a major worldwide problem, the research we are conducting positions us to help solve one of the great health challenges of our time."

Cavendish Global consists of over 150 leading family offices and foundations from around the world with combined assets of over \$190 billion who share a passion for pro-social endeavors within health and the life sciences. The Cavendish Global Health Impact Forum provides family offices with a discrete, peer-to-peer knowledge expansion and

relationship building environment, combined with the information and educational resources required by foundations actively seeking to accelerate technological innovation and health access through sustainable philanthropy, grant-making and impact investing. The Forum is also an opportunity for family offices to champion and share information on projects and organizations, which they are passionate about with other family offices from around the world. Cavendish Global together with the Global Partnerships Forum and the New York Academy of Sciences organizes the Forum annually in New York.

About Amarantus

Amarantus is a biotechnology company developing treatments and diagnostics for diseases associated with neurodegeneration and protein misfolding-related apoptosis. The Company has licensed Eltoprazine ("Eltoprazine"), a phase 2b ready indication for Parkinson's Levodopa induced dyskinesia and Adult ADHD. The Company has an exclusive worldwide license to the Lymphocyte Proliferation test ("LymPro Test(R)") for Alzheimer's disease and owns the intellectual property rights to a therapeutic protein known as Mesencephalic-Astrocyte-derived Neurotrophic Factor ("MANF") and is developing MANF-based products as treatments for brain disorders. Amarantus is a Founding Member of the Coalition for Concussion Treatment (#C4CT), a movement initiated in collaboration with Brewer Sports International seeking to raise awareness of new treatments in development for concussions and nervous-system disorders. The Company also owns intellectual property for the diagnosis of Parkinson's disease ("NuroPro") and the discovery of neurotrophic factors ("PhenoGuard"). For further information please visit www.Amarantus.com, or connect with the Company on [Facebook](#), [LinkedIn](#), [Twitter](#) and [Google+](#).

About Cavendish Global

Cavendish Global provides family offices and their foundations with a discrete, peer-to-peer knowledge expansion and relationship building environment, combined with the innovative resources required to help develop and implement their individual pro-social impact investment, grant making and philanthropy programs within health and the life sciences. Cavendish Global provides family offices with a number of innovative resources, which includes Cavendish Impact Forums. A unique gathering of leading family offices, Cavendish Impact Forums take place three times each year; in the United States (taking place in New York at the United Nations Headquarters May 5th to 7th 2014), Europe (Oxford University, October 2014) and a third event held at a Cavendish Host Partner City which moves to a different global location each year (Dubai, UAE January 2015).
