Amarantus to Present at the 2014 BIO International Convention

SAN FRANCISCO, June 23, 2014 (GLOBE NEWSWIRE) -- Amaranthus Bioscience Holdings, Inc. (OTCQB:AMBS), a biotechnology company focused on the discovery and development of novel diagnostics and therapeutics related to endoplasmic reticulum stress, cell cycle dysregulation, neurodegeneration and apoptosis, today announced that Gerald Commissiong, President and CEO will be presenting at the 2014 BIO International Convention on Thursday, June 26 at 11:45 AM PDT. The presentation will take place in the Mission Beach Room. Hosted by the Biotechnology Industry Organization (BIO), the conference will take place on June 23-26, 2014 at the San Diego Convention Center in San Diego, California.

Business development representatives from the Company will be participating in the Partnering Forum at the Convention. The Company has 45 one-on-one meetings scheduled, and has availability for 5 additional meetings. For meeting requests, please email bd@amarantus.com.

For registration, conference agenda and exhibitor information, visit convention.bio.org/.

About Amaranthus

Amarantus is a biotechnology company developing treatments and diagnostics for diseases associated with neurodegeneration and protein misfolding-related apoptosis. The Company has licensed Eltoprazine a phase 2b ready indication for Parkinson's Levodopa induced dyskinesia. The Company has an exclusive worldwide license to the Lymphocyte Proliferation test ("LymPro Test®") for Alzheimer's disease and owns the intellectual property rights to a therapeutic protein known as Mesencephalic-Astrocyte-derived Neurotrophic Factor ("MANF") and is developing MANF-based products as treatments for brain disorders. Amaranthus is a Founding Member of the Coalition for Concussion Treatment (#C4CT), a movement initiated in collaboration with Brewer Sports International seeking to raise awareness of new treatments in development for concussions and nervous-system disorders. The Company also owns intellectual property for the diagnosis of Parkinson's disease ("NuroPro") and the discovery of neurotrophic factors ("PhenoGuard"). For further information please visit www.Amarantus.com, or connect with the Company on [Facebook](#), [LinkedIn](#), [Twitter](#) and [Google+](#).

About the BIO International Convention

The BIO International Convention will highlight the latest trends and the newest opportunities for executives, investors, scientists, policy leaders, and media from around the world. Speakers at the sessions will share breakthroughs in medicine, diagnostics, the environment, energy production, business operations, financing, partnerships, policy issues

and food and agriculture. The Convention also features the BIO Business Forum, a unique platform for biotechnology and pharmaceutical companies, academic research institutions, and investors from around the world to gather and discuss strategic opportunities.

Certain statements, other than purely historical information, including estimates, projections, statements relating to our business plans, objectives, and expected operating results, and the assumptions upon which those statements are based, are forward-looking statements." These forward-looking statements generally are identified by the words believes," project," expects," anticipates," estimates," intends," strategy," plan," may," will," would," will be," will continue," will likely result," and similar expressions. Forward-looking statements are based on current expectations and assumptions that are subject to risks and uncertainties which may cause actual results to differ materially from the forward-looking statements. Our ability to predict results or the actual effect of future plans or strategies is inherently uncertain. Factors which could have a material adverse effect on our operations and future prospects on a consolidated basis include, but are not limited to: changes in economic conditions, legislative/regulatory changes, availability of capital, interest rates, competition, and generally accepted accounting principles. These risks and uncertainties should also be considered in evaluating forward-looking statements and undue reliance should not be placed on such statements.
