

COMPANY OVERVIEW

COPsync, Inc. (COYN) is a technology company that improves law enforcement communication in a manner that saves officers' lives and helps them prevent and respond more quickly to crime. Officers have instant access to actionable, mission-critical data, share information, and communicate in real-time with other officers and agencies, even those hundreds and thousands of miles away. The COPsync Network™ also eliminates manual processes and increases officer productivity by enabling officers to write electronic tickets, accident reports, DUI forms, arrest forms and incident and offense reports. COPsync's threat-alert system, COPsync911™, enables schools, courts, hospitals, and other potentially at-risk facilities to automatically and silently send emergency alerts directly to local law enforcement officers in their patrol cars during a crisis, thereby speeding first responder response times and saving minutes when seconds count. The company also sells VidTac®, a law enforcement software-driven in-vehicle video system.
