MYnd Analytics Joins Magellan Healthcare Provider Network to Offer Telebehavioral Health Services

MISSION VIEJO, Calif., March 13, 2019 (GLOBE NEWSWIRE) -- **MYnd Analytics, Inc. (NASDAQ: MYND)**, a predictive analytics company aimed at improving the delivery of mental health through the combination of telemedicine and data analytics, today announced that its wholly owned subsidiary, Arcadian Telepsychiatry Services LLC, has joined the Magellan Healthcare behavioral health provider network to offer telepsychiatry, teletherapy and teleEAP services to its members through Arcadian's provider network.

[Magellan Health, Inc.](#), a [Fortune 500 company](#), supports innovative ways of accessing better health through technology, while remaining focused on the critical personal relationships that are necessary to achieve a healthy, vibrant life. Magellan's customers include health plans and other managed care organizations, employers, labor unions, various military and governmental agencies and third-party administrators.

"We are pleased to welcome Arcadian Telepsychiatry Services to our provider network as a 'virtual group practice' to expand availability and flexibility to our members seeking care," said Eric Schmitz, senior vice president of network development at Magellan Healthcare.

Patrick Herguth, CEO of MYnd, stated, "We are honored to collaborate with Magellan to offer our telepsychiatry, teletherapy and teleEAP services to their members. Magellan's members now have access to telebehavioral health services from the comfort and convenience of their home using web-enabled video conferencing. Our goal is to increase access to mental health services, reduce waiting times and improve patient satisfaction, and this latest agreement is further illustration of the traction we are gaining in the marketplace."

About MYnd Analytics

MYnd Analytics, Inc. (www.myndanalytics.com) is a predictive analytics company that has developed a decision support tool to help physicians reduce trial and error treatment in mental health and provide more personalized care to patients. The Company's Psychiatric EEG Evaluation Registry, or PEER Online, is a registry and reporting platform that allows medical professionals to exchange treatment outcome data for patients referenced to objective neurophysiology data obtained through a standard electroencephalogram (EEG). Based on the Company's original physician-developed database, there are now more than 40,000 outcomes for over 11,000 unique patients in the PEER registry. The goal of PEER Online is to provide objective, personalized data to assist physicians in the selection of appropriate medications.
