Clean Coal Technologies, Inc (CCTC) Announces the Granting of Full Patents in Eurasia

NEW YORK, NY / ACCESSWIRE / September 14, 2017 /Clean Coal Technologies, Inc., (OTC PINK: CCTC) ("CCTI" or the "Company"), an emerging clean-energy company utilizing patented technology to convert raw coal into a cleaner burning and more efficient fuel, today announced that they have been granted full patents in Eurasia for their Pristine M technology.

"The granting of the Eurasia patent for our Pristine M technology is very timely for our company. Eurasia includes key strategic countries Russia and Kazakhstan where there is significant interest in our technology. The timing could not be better, as we have scheduled visits to our test facility from interested companies from these countries who are currently under NDA with us," stated Mr. Robin Eves, CEO and President of Clean Coal Technologies Inc. "The period of validity of the patent goes to September 7, 2032. The protection of our intellectual property is paramount as we move towards commercialization overseas," concluded Mr Eves.

Further updates on the progress of the additional tests at our facility in Oklahoma will be released in due course.

About Clean Coal Technologies, Inc.

Clean Coal Technologies, Inc., a cleaner-energy technology company with headquarters in New York City, NY, holds patented process technology and other intellectual property that converts raw coal into a cleaner burning fuel. The Company's trademarked end products, "Pristine™" coals, are significantly more efficient, less polluting, more cost-effective, and provide more heat than untreated coal. The principal elements of the Company's pre-combustion technology are based on well-proven science and tried-and-tested industrial components. The Company's clean coal technology may reduce some 90% of chemical pollutants from coal, including Sulfur and Mercury, thereby resolving emissions issues affecting coal-fired power plants.
