The Company reduced net debt (a non-GAAP financial measure) by \$8.5 million to \$25.5 million during 2017 and announces one million share repurchase program

- Net revenues totaled \$18.9 million, an increase of 12% over the fourth quarter of 2016. - Net collected revenues increased 17% over the fourth quarter 2016 and 1% over fiscal year 2016;
- Net collected rental revenues for the fourth quarter of 2017 were \$14.7 million, an increase of 12%, compared to the same 2016 period’s \$13.1 million. For the full year of 2017, net collected rental revenues were \$55.4 million, a decrease of 2%, compared to 2016 of \$56.6 million;

Management Discussion

Gregg Lehman, executive chairman of the board, said, “We made significant progress in 2017 in repositioning the business and setting the stage for enhanced financial performance in 2018 and in the years to come. This is a testament to the leadership team and all the employees for their dedication and commitment to drive operational excellence throughout the Company. I am confident in our new CEO, Rich Dilorio, and strongly believe he and his leadership team will continue to improve on our operational metrics and drive value for our shareholders.”

Rich Dilorio, chief executive officer of InfuSystem, said, “During the second half of 2017, the management team shifted the focus to improving operations, reducing costs, and paying down debt. The Company reduced net debt (a non-GAAP financial measure) an additional \$3.8 million during the fourth quarter of 2017 and \$8.5 million for all of 2017.”

“After my appointment as CEO in November 2017, the team continued the focus on operational improvements and I am very pleased to report substantial progress. Most notably, for 2017, we increased our third-party payor networks to 520, a 15% increase compared to 2016, and improved our cash collections from our direct facility billing for Medicare patients. The substantial improvement in cash collections for our direct facility billing helped contribute to an overall decrease in the provision for doubtful accounts.”

“After a comprehensive review and evaluation of our IT projects and expenditures, we redirected resources to those programs and services where we believe the Company can get the best return on investment. As a result, IT spending (both capitalized and uncapitalized) was reduced during the second half of the year. After review of our capitalized IT projects, we recorded an impairment charge of \$1.0 million.”

“The Company’s management team has built momentum and are excited about carrying this momentum into 2018. We expect that better collection efforts, more efficient use of our pump fleet, and reduced capital expenditures will provide for continued generation of strong cash flow,” concluded Mr. Dilorio.

Stock Repurchase Program

Reflecting the Company’s much improved financial position and cash-generating capabilities, the Company’s Board of Directors has approved a stock repurchase program authorizing the Company to repurchase up to one million shares of the Company’s outstanding stock. The repurchase program will be subject to market conditions, the periodic capital needs of the Company’s operating activities, and the continued satisfaction of all covenants under the Company’s existing credit agreement. Repurchases under the program may take place in the open market or in privately negotiated transactions, and may be made under a Rule 10b5-1 plan. The repurchase program does not obligate the Company to repurchase shares and may be suspended, terminated, or modified at any time.

Full Year 2017 Results

Net revenues for the fiscal year ended December 31, 2017 were \$71.1 million, which was an increase compared to the prior year’s net revenues of \$70.5 million, primarily due to an increase in Product Sales of 21% offset by a decrease in rentals of 2%.

Net Debt (a non-GAAP financial measure) as of December 31,

2017 was \$25.5 million compared to \$34.0 million for the same 2016 period.

Chris Downs, interim chief financial officer, said, "During the fourth quarter of 2017, the Company recorded a "non-cash expense" valuation allowance, in the amount of \$11.4 million, against our deferred tax assets to bring them to a level that it is more likely than not to be utilized. The Company also recorded a "non-cash expense" of \$5.6 million for the cumulative effect of changes in the federal income tax rates from 34% to 21%, in determining deferred tax assets and liabilities recorded in connection with the 2017 Tax Act. Valuation allowances are established to reduce deferred tax assets to an amount that is more likely than not to be realized. The Company evaluated our deferred tax assets for recoverability during the fourth quarter of 2017, considering negative and positive evidence, including our historical financial performance, projections of future taxable income based on management's approved business plans, and future reversals of existing taxable temporary differences, to arrive at this conclusion," concluded Mr. Downs.
