# Clean Coal Technologies, Inc. Announces Receipt of Second Advance of Funding for the Fabrication Of Its Test Facility In Tulsa, Oklahoma

**NEW YORK, NY / ACCESSWIRE / May 26, 2015** /Clean Coal Technologies, Inc., ([CCTC](#)) ("CCTI" or the "Company"), an emerging cleaner-energy company utilizing patented technology to convert raw coal into a cleaner burning and more efficient fuel, today announced the receipt of the second advance of additional financing towards the completion of its test facility in Tulsa, Oklahoma, from Black Diamond Financial Group. The Company intends to primarily use the proceeds of this second advance of financing to continue the fabrication of its test facility.

"Now that fabrication is back on track and we are working toward testing and proving our technology, management is receiving renewed interest in commercializing our cleaner-energy technology that we are developing both domestically and internationally. We continue to move forward in a positive manner and the entire team is focused on execution and meeting our milestones," said Robin Eves, CEO and President of CCTI.

## **About Clean Coal Technologies, Inc.**

Clean Coal Technologies, Inc., a cleaner-energy technology company with headquarters in New York City, NY, holds patented process technology and other intellectual property that converts raw coal into a cleaner burning fuel. The Company's trademarked end products, "Pristine(TM)" coals, are significantly more efficient, less polluting, more cost-effective, and provide more heat than untreated coal. The principal elements of the Company's pre-combustion technology are based on well-proven science and tried-and-tested industrial components. The clean coal technology that the Company is developing is designed to reduce some 90% of chemical pollutants from coal, including sulfur and mercury, thereby resolving emissions issues affecting coal-fired power plants.
